THOMAS HALE KILLED IN AUTO ACCIDENT

A car accident occurred at Frank about 5.30 on Saturday evening last, in which Thomas Hale, a long-time resident of Hillcrest, lost his life.

Hale was a passenger in an auto driven by Alex. Nysatuk, of Todd Creek, and was enroute from Blairmore to his home in Hillcrest. Passing through Frank at a point where water-main repairs were being effected and in attempting to pass around the excavation, his car was forced across the road in order to avoid running over a pedestrian. The car collided with a telephone pole and as a result Hale sustained injuries necessitating his immediate removal to the Hillcrest hospital, where he failed to rally and expired a few hours later.

Hale is survived by a wife and two step-children, residing at Hillcrest.

The inquest concluded at the Blairmore courthouse last evening, before Coroner A. J. Kelly, and a verdict of accidental death was returned.

The remains were laid to rest at Hillcrest this afternoon.

Mr. Hale was about fifty years of age. His wife was formerly Mrs. Turner and Mrs. "Jake" Wheller, Hale being her third husband.

BLAIRMORE SECURES HIGH AVERAGE

Following is an analysis of the results by units of the examinations June 30th, as affecting the Blairmore school:

Algebra 1—34 pupils, 27 passed, Alberta average 79.76, Blairmore 79.41.

Algebra 2—12 pupils, 10 passed, Alberta average 72.17, Blairmore 83.33.

Arithmetic—12 pupils, 11 passed, Alberta average 72.21, Blairmore 91.37.

Art 1—13 pupils, 13 passed, Alberta average 66.52, Blairmore 100.

Art 2—2 pupils, 1 passed, Alberta average 58.30, Blairmore 50.

Chemistry—11 pupils, 11 passed, Alberta average 86.58, Blairmore 100.

Composition 1—27 pupils, 21 passed, Alberta average 74.31, Blairmore 77.78.

Composition 2—16 pupils, 13 passed, Alberta average 64.12, Blairmore 81.25.

Composition 3—12 pupils, 8 passed, Alberta average 76.45, Blairmore 66.67.

French 1—18 pupils, 16 passed, Alberta average 70.18, Blairmore 88.89.

French 2—8 pupils, 5 passed, Alberta average 71.07, Blairmore 62.50.

General Science—25 pupils, 19 passed, Alberta average 67.16, Blairmore 76.

Geography—11 pupils, 11 passed, Alberta average 78.68, Blairmore 100.

Geometry 1—29 pupils, 24 passed, Alberta average 75.64, Blairmore 82.78.

Geometry 2—13 pupils, 5 passed, Alberta average 64.90, Blairmore 38.46.

History 1—32 pupils, 23 passed, Alberta average 73.32, Blairmore 71.87.

History 2—14 pupils, 9 passed, Alberta average 63.94, Blairmore 64.29.

History 3—12 pupils, 11 passed, Alberta average 84.05, Blairmore 91.67.

Latin—11 pupils, 9 passed, Alberta average 77.55, Blairmore 81.82.

Literature 1—26 pupils, 24 passed, Alberta average 86.61, Blairmore 92.31.

Literature 2—17 pupils, 10 passed, Alberta average 77.26, Blairmore 58.82.

Literature 3—13 pupils, 11 passed, Alberta average 77.79, Blairmore 84.62.

BLAIRMORE LADIES CLOSE SUCCESSFUL GOLF SEASON

The members of the Blairmore Ladies' Golf Club closed a very successful season on Saturday last with a nine-hole match, Captain's versus Vice-Captain, won by the v.c. side. This was followed by a supper at the Greenhill Grill, for which the losers paid. After supper, the prizes which had not been given out during the year, were presented by the Captain, Mrs. Gillis. The Club prize, played for the first Saturday of each month—a nine-hole handicap competition—was won by Miss Jean Greig. On the third Saturday of each month, there was an eighteen-hole handicap competition. The prize, donated by Mrs. Morgan, was also won by Miss Greig. The prize given by Mrs. Bird for the single elimination competition, was won by Mrs. F. M. Thompson. Prizes for another elimination competition, given by Mrs. Farmer (1st) and Mrs. Rhynas (2nd), were won by Miss Sellen and Mrs. Farmer, respectively. Mrs. Farmer turned in her prize for a special putting and approaching competition, being won by Miss Greig. The prize given by Mrs. Kerr for the eclectic competition was won by Mrs. Bird with a score of 31 for nine holes. Before adjourning, a vote of thanks was tendered the captain and officers for the efficient way in which they had handled the affairs of the Club during the season. Other events during the year were as follows: A prize for approaching and putting, given by Mrs. Gillis, was won by Mrs. Bird on June the 7th. A special prize for a nine-hole handicap competition, given by the Club, was won by Mrs. Pattinson in September. Mrs. Campbell gave a tea and tombstone competition during September. The prize for this event was won by Mrs. Rhynas. On October the 2nd, Mrs. Thompson gave a tea and competition, the prize for the best nine-hole score was won by Mrs. Kerr, and for the best net score by Miss Peake. Mrs. Gillis won the prize for clock golf. On October 4th, Mrs. Farmer won the prize for the best gross score for eighteen holes, given by Mrs. F. J. Smith, and Mrs. Rose carried off the prize for best net score given by Miss Sellen. Miss Sellen won the prize for clock golf given by Mrs. Kerr. On Saturday, October the 11th, prizes given by Mrs. Passmore for a one-club nine-hole competition were won by Mrs. Thompson and Mrs. Whiteside, gaining best gross and best net, respectively. On the third Wednesday of each month, mixed foursomes were played and tea served in the clubhouse. There is a mixed foursome elimination competition still in progress. The winners will be announced later. Mrs. Granger has the distinction of being the only lady member of the Club to win the mercury competition, by making the ninth hole in two. This hole is 325 yards. The captain and officers of the Club wish to thank all those who gave teas, donated prizes and otherwise helped to make the season a success.

CARD OF THANKS

Mrs. Fabro and family desire, through The Enterprise, to thank all for their kind expressions of sympathy to them in their recent sad bereavement, and also for the many spiritual offerings and floral tributes.

In the neighborhood of five hundred lives were lost through two mine explosions in Germany.

Physics—19 pupils, 11 passed, Alberta average 79.23, Blairmore 59.89.

Grand Summary all subjects—Provincial average 74.35, Blairmore 78.29.

Blairmore results include 7 supplementary passes. Provincial results are apparently as at June 30 only.

What Does Your Work Mean To You?

In the current issue of a well known magazine there is an article, bearing the title "Do You Ever Get Off On the Wrong Foot?" which discusses the problems of people who at some stage in their career come to the conclusion that they are square pegs in round holes. In a word, that they do not fit; that they have made a mistake in the choice of their business occupation or professional calling, and, as a result, are not making the progress they feel they should make and their abilities entitle them to make.

On the other hand, a daily newspaper is at present running a series of short sketches of men who in their boyhood or early manhood had ambitions along certain lines, but circumstances, environment, fate, call it what you will, decided otherwise, and instead of being what in those other days they "wanted to be," they have achieved success in radically different walks of life.

In this present period of world-wide depression, a temporary period when we are for the first time feeling and suffering the real aftermath of the Great War, doubtless many people are asking themselves the question: Have I got off on the wrong foot? Am I a square peg in a round hole? Should I make a change, abandon the business, trade or profession in which I am or have been engaged and try something new and different?

Possibly at this time farmers particularly may be inclined to indulge in such questioning as they contemplate the many vicissitudes which agriculture has undergone during the past two years as a result of climatic conditions, marketing difficulties, and a selling price for their products below the actual cost of production. The present outlook may not look promising to them, any more than it does to the city wage-earner. The question, however, which both classes must consider is whether, after all, any change would be better.

For example, if the man engaged in agriculture really likes farming and a rural life, and that degree of independence resulting from the fact that he is his own boss, preferring these to the limitations of a salaried position in town or city, the paid servant of others, and breathing the air of congested centres of population, then he has not made a mistake; he is not a misfit. Nor is the city man in the wrong place if on his part the open-air life and activities of the farm and the less strenuous life of rural communities makes no appeal to him.

Possibly in both city and country, and with men in all occupations and callings in life, some part at least of their dissatisfaction with their own condition is to be found in their failure to fully grasp all the opportunities of their present vocation. In the magazine article with which reference has already been made, the story is told of a man in middle life who, dissatisfied with his position and the progress he was making, came to the parting of the ways. An orphan, forced to make his way at the age of thirteen, he took a humble position in a food commission warehouse. In course of time he became a salesman, acquired a family and a house worth four thousand dollars, and at forty-two was working long hours every day for forty dollars a week. An opportunity presented itself to become produce manager in a newly organized business at fifty dollars a week, but he was required to invest two thousand in the business. He mortgaged his house to raise the money, and took on the new job. But the promoter of the business was inexperienced, and in ten months it failed, with the result that this man lost his money and ruined his health by worry. He then took stock of "himself." He realized he knew a little about a whole lot of vegetables, but did not know everything there was to know about any one of them. So, on the advice of a friend, this man went back to his old job and worked two years more during which time he made close and expert study of one particular vegetable for which there was an all-year-round demand. He learned where the best varieties were grown, and by whom; refrigerating methods; packing methods; costs; who bought that particular variety of vegetable; ways to use it; everything. Then he launched into business in a rented dark basement dealing exclusively in that one particular vegetable. Today he heads a huge and profitable business and is worth hundreds of thousands of dollars.

The point is just this: Is the dissatisfied agriculturist farming in any old way in haphazard fashion, sowing any kind of seed, good and clean or not; using any kind of scrub cattle, indifferent breeds of poultry, or other farm stock? Is the dissatisfied city artisan, or clerk, or business man, just drifting along, doing what comes to his hand, without giving much heed to the method of doing it? Is the carpenter, for instance, content to be merely a "saw and hammer" man instead of studying and striving to become efficient and an expert in his work? Is the merchant plodding along lines of least resistance but making no mental effort to study the requirements of his particular field and the needs, even the fads, of his customers?

In a word, are we treating our present occupations in life merely and solely as a means of physical existence in life, or are we finding some real pleasure and satisfaction in the work itself? If the former is our approach to our work we will, of course, be dissatisfied with it and with ourselves, and ultimate failure must result. If, on the other hand, the work itself means something to us, and we take a keen interest in it, study it and its possibilities, constantly strive for its improvement, then satisfaction will result, leading to contentment and a reasonable measure of success.

While there are exceptions to the general rule, that general rule is that it is not so much the nature of the work in which we are engaged that counts, as our attitude towards that work which makes for dissatisfaction and failure on the one hand or satisfaction and ultimate success on the other hand.

The Aeroplane and Geodesy

Problem of Survey Work in Remote Districts Has Been Solved

The aeroplane has solved one of the problems of the Geodesic Survey of Canada. In those districts which are traversed by neither roads nor railways, travel is slow and at times almost impossible, obstruction is met everywhere in measuring the points in the great triangulation net which is gradually covering the whole of the Dominion. By means of the aeroplane most of these difficulties have been set aside.

UTTERLY WORN OUT

Women Weakened By Worry

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her strength. If she finds herself getting depressed; if she feels utterly worn out; worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention. Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing to equal Dr. Williams' Pink Pills. These Pills not only enrich the blood, but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong, steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Progressive Estevan

Three New Industrial Plants Operated At Recent Ceremony

The town of Estevan on September 24th opened three new industrial plants at a ceremony attended by some 300 leading business and professional men of Western Canada, and "The Mercury" in a special issue, notes the recent progress of this town of 3,000 people, the extent of whose agricultural and mineral wealth is only beginning to be realized. Among other things, it boasts of having the only plant in Canada making stone-grey building brick and of having the largest nurseries in the Dominion.

The man who makes a better job out of the job he has instead of all ways looking for a better job is the man who succeeds.

Winter Holiday Trips

Canadian Pacific Offers Special Inducements To the Winter Traveller

Sharp stimulus to winter travel in Western Canada this year is forecast by Canadian Pacific Railway officials in Winnipeg, chief among the contributing factors being the many special trains arranged to connect with special sailings to the Old Country for Christmas and New Year's. While this rail movement will be eastward, there are also many interesting winter features in the west that annually bring thousands of easterners, Canadians and Americans, to the winter playground of the northwest.

The Banff Carnival is now known all over the civilized world, and another western winter sporting event that has become firmly fixed on the calendar is the mid-winter golf tournament, sponsored by the Canadian Pacific Hotels, at Victoria, capital City of British Columbia.

This tournament, started in 1928, enters its third year next February, when, from February 23 to 28, a host of golfers will gather in the Pacific Northwest in quest of the Beatty challenge trophy. The tournament is being held this season at the Oak Bay course of the Victoria Golf Club, where all-winter golf is one of the feature attractions of Vancouver Island's evergreen playground.

As a special inducement to winter travellers, low round trip fares have been named by the Company to East-Canada and Central-Slate, commencing December 1st, and to the Pacific Coast during December, January and part of February. These tickets are considerably lower in price than the ordinary fare and bear a much longer limit.

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Kellogg's great Asthma Cure, which is prompt relief, but it introduces a new era of life for the afflicted. Systematic in use, it prevents re-attacks, and often effects a permanent cure.

Canadian Trade Office For Egypt

Donation Has 34 Trade Commissioners in Different Parts of the World

A new Canadian Government Trade Commissioner's office is to be opened at Cairo, Egypt. The territory for this new office, which will open sometime next December, includes Egypt, the Sudan, Palestine, Cyprus, Syria, Iraq, Persia, and the Channel Islands. Canadian Trade Commissioner takes over at Cairo, Canada will have 34 trade commissioners in different parts of the world, and a similar agent at Sydney, Australia. These commissioners function under the Commercial Intelligence Service of the Canadian Government Department of Trade and Commerce, which is designed to further the interests of Canadian trade in all parts of the world. The trade commissioners make periodical reports upon trade and financial conditions in their respective territories and keep Canadian manufacturers and exporters advised concerning opportunities for the sale of Canadian products. Canada's foreign trade in 1928 was \$266 per capita, the highest in the world.

Trying All Ways

Mr. Newlwyd: Is the steak ready now, dear?

Mrs. Newlwyd: I'm sorry I'm so long, George, but it looked hopeless; grilled, and it doesn't look much better fried, but if you'll be patient a little longer, I'll see what boiling does to it.

Persian Balm is inevitably chosen by discerning women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands flawlessly white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair restorative and cooling shaving lotion.

U.S.A. Manufacturers For Manitoba
A special publicity campaign, aiming at the establishment of American manufacturing plants in the Province of Manitoba, is to be launched by the Industrial Development Board of the province.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Population Of Moose Jaw
According to the new Henderson Directory, the population of the City of Moose Jaw is shown as 28,140, or an increase of 3,497 over 1920.

Brain workers live long. Thomas Edison is 83, Sir Oliver Lodge is 79, Bernard Shaw is 74, and other scientists and brain workers are well past the 60-year mark.

Banish pain with Minard's Liniment.

People Need Products

Russia Is Selling Soviets Take That Method To Raise Money For Treasury

Soviet dumping of wheat and other products abroad at a time when the supplies are urgently needed in Russia itself is in the nature of "tax" collected under the Russian system, says the Financial Post, which continues:

"In Soviet Russia, the word taxation has no such meaning as Western minds attach to it. Holding private ownership to be unethical, the government itself is officially the owner of all property. Consequently, there is none for it to tax. Proclaiming private profits to be opposed to human welfare, it officially permits the accumulation of no incomes which might be taxed. It is obliged, therefore, to obtain its revenue from the actual products of the mines, forests, and farms which it operates or to take as taxes the produce of those who still operate privately—mainly the unsocialized peasants. But since it cannot operate a treasury directly with wheat and lumber, it must sell these articles in the outside world."

"This is what it is doing to the extent even of leaving its own people on the verge of starvation. Officially they are permitted, to eat only what is distributed to them by the government, and the heavy purchases of machinery abroad mean that the people at home must be kept to the very lowest limit of supplies."

For Dry Skin—Minard's Liniment.

Turner Valley Oil

Seven Thousand Acres Definitely Proved A Large Producer Of Gas And Oil

Following a tour of the Turner Valley oil field, A. Beeby Thompson, a member of the British Council of Petroleum Technologists, declared that 7,000 acres of that territory had been definitely proved as a large producer of gas and oil. Production, since the beginning of drilling operations, amounted to 3,000,000 barrels of a value of \$10,000,000, the present rate of production being about 3,500 barrels per day from about 60 wells.

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes:—"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest, very sick with summer complaint, and there was no improvement. I tried cod liver oil, but it did not do anything, but they could get no relief. Dr. Fowler's made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Millburn Co., Ltd., Toronto, Ont.

GENUINE INDIAN CIGARETTES

which are at once useful and ornamental. Strongly made of best buckskin, dry tanned and smoked, with vetted seams and genuine Indian designs. Every coat is guaranteed to give years of satisfactory use, and this, coupled with the fact that they are made by a strong appeal to hunters, trappers and others who require the utmost in wearing apparel, makes them a desirable possession. Made by the Chipewyan and Crepe Indians here in the foothills of the Rockies. Limited supply for disposal at the reasonable price of \$18.00 and \$20.00.

Post Paid to any P. O. in Canada.

Old Milestone Found

Supposed To Indicate Distance From Chiappia, Italy, To Rome

Quite recently the most interesting discovery was made in Chiappia, Italy. During excavations there was brought to light an old marble milestone. On the stone could still be distinguished the marking of 553 miles and the name of Augustus Caesar. Presumably the stone indicated the distance from that spot to Rome, and formed part of the old road running between Rome and the Gallic countries, and known then as the Via Aurelia.

Ready-Made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Eucalyptic Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains, it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

When everybody is doubtful or scared—then is the time to buy a home, good goods and sound securities.

Butter can now be made without churning by a centrifugal process.

FALLING OFF IN MIGRATION FROM BRITISH ISLES

London, England.—There has been a pronounced decline in the number of assisted migrants who have left the shores of Britain for the Dominions in the last four years, according to figures submitted to the overseas settlement committee of the Imperial Conference. The less attractive economic conditions to be found in the Dominions in the last year or so was largely blamed for the drop.

State-aided migration to Canada in 1927 totalled 27,615 persons, while 23,138 went to Australia and 4,446 to New Zealand. Last year 21,615 migrants went to Canada, 11,523 to Australia and 1,849 to New Zealand. Of the three countries, it will be seen that Canada suffered least by the drop. It is expected further that 37,000 additional persons went to Canada in 1929 under the ten-pound fare rate, which really reveals an acceleration rather than a decrease in the Canada-ward trek.

Today saw the Imperial Conference committees approaching the end of their task. A number of them are now entering the draft report stage and have cleared away routine work. The arbitration and disarmament committee, under Hon. H. H. Wood, Dupre, Solicitor-General of Canada, concluded its discussion of the British draft disarmament treaty submitted to the preparatory disarmament commission of the League of Nations. It was announced recently that Prime Minister Ramsay MacDonald, of Great Britain, was holding informal personal conversations with the prime ministers of the Dominions separately in an endeavor to smooth the path towards a successful conclusion of the Imperial Conference.

Forming Farm Boards

Prairie Provinces Stand Ready To Help Farmers Financially

Winnipeg, Man.—All three prairie provinces stand ready to assist western farmers in their financial predicament brought on by low prices of grain and livestock. Saskatchewan has had a debt-adjustment bureau in force for some time and Manitoba now has set up a parallel board to aid needy farmers and to effect fair distribution of credit and collections. The newest member of the group is Alberta's agricultural development board, whose formation has been announced.

Sir Arthur Currie To Visit British India

Chosen As Canada's Representative At Inauguration Ceremonies Of New Delhi

Ottawa, Ont.—The Dominion Government has requested General Sir Arthur Currie, commander-in-chief of the Canadian forces during the war, to represent Canada at the ceremonies in connection with the inauguration of New Delhi as the capital of British India and the opening of the new government buildings there. General Currie has accepted the invitation and will undertake the mission.

Offers Home For Research

Wealthy Buffalo Woman Anxious To Aid Cancer Experts

New York.—The New York "American" says: Mrs. Grace L. Connors, widow of William J. Connors, Sr., Buffalo, N.Y., newspaper publisher, financier and political leader, has offered to turn her \$1,000,000 Long Island mansion into one of the most complete cancer research institutes in the world. She made the offer to Doctors Walter B. Coffey and John Humber, of San Francisco, who have made some notable discoveries in cancer research.

Guilt-Curel In Auto Accident

Birmingham, Eng.—Mrs. Amelia Gelli-Curel was badly bruised and suffered a severe shaking up near here when the automobile bearing among others the famous soprano and her husband, Homer Samuels, overturned. The party were traveling to Kings Norton where the chauffeur, serving to avoid a collision with another car, lost control.

Opposed To British Policy

Jerusalem, Palestine.—The National Council of Palestine Jews after a meeting which lasted eight hours, decided unanimously to reject the British statement of policy in Palestine and not to participate in the proposed legislative council.

W. N. U. 1861

Lake Winnipeg Tragedy

Two Fishermen Drown When They Leaped From Burning Tug Boat

Winnipeg, Man.—From the blazing deck of the tug "Magnus," four fishermen leaped into the chill waters of Lake Winnipeg, near Gimli. Two were drowned, and the other pair were dragged, half-dead, from the icy water by another tug which rushed to the rescue. The "Magnus" sank after a gasoline explosion shattered the engine room stem to stern.

The dead: Captain William Bjarnson, Engineer Joe Bell.

The rescue tug "Goldfield," summoned by firemen from the ill-fated "Magnus," ares, saved Martin Johnson and Ole Kardell, surviving members of the crew. Bodies of Captain Bjarnson and Engineer Bell have not been recovered. The tug's gasoline-propelled launch had caught fire below deck soon after it left Gimli on October 22, but the blaze was not discovered for some time, until it was too late to stop it. It is expected further that the "Magnus," owned by the Armstrong-Gimli Fisheries Company, was northbound for the fishing waters, the far end of Lake Winnipeg. The tug, laden with fishing supplies for the winter, will be a total loss.

Embargo On War Munitions

President Hoover Will Not Permit Shipment Of Arms To Brazilian Rebels

Washington, D.C.—President Hoover has issued a proclamation placing an embargo on the shipment of munitions of war to Brazil except for the Federal Government at Rio de Janeiro. In taking this step, the president acted upon the request of S. Gurgel Do Amaral, Brazilian ambassador and minister to the United States Government, definitely against the rebel forces in the southern republic.

Until this proclamation was issued the Brazilian revolutionists were free to procure arms and munitions from the United States through private manufacturers. So far as the state department is advised, however, no shipments have actually been made to the rebels.

While secretary Stimson described the Brazilian ambassador as optimistic, the fact that his government requested an embargo on the shipment of arms to the rebels was generally construed as indicating that the authorities at Rio de Janeiro recognized that the uprising constitutes a grave threat to the Federal Government.

Automobile Production Down

Fewer Cars Produced In September Than Any Month In The Year

Ottawa, Ont.—Canada produced fewer automobiles in September than in any month this year, it was shown in a report published recently by the Dominion Bureau of Statistics. The total was 7,957 cars, being 19 per cent. lower than for August, and 42 per cent. lower than for September, 1929.

Likewise production figures for the first nine months of the year showed substantial reductions over 1929 totals. To the end of September, Canadian plants produced 138,622 cars, compared with 235,553 cars for the same period last year. This reduction amounts to 41 per cent.

Early Winter Is Hard On Aviators

Surprise Blizzard Caught Pilots and Mechanics At Northern Air Base

Prince Albert, Sask.—October's surprise blizzard caught the R.C.A.F. unaware, and pilots and mechanics at Ladder Lake air base labored often waist-deep in icy water to extricate four flying boats, including the huge twin-motored 14A passenger Vickers-Vancouver, from the ice of the lake. Usually the aircraft are flown to Winnipeg headquarters for the winter, but this year the machines will have to be beached and left until spring.

Celebrates 110th Birthday

Vancouver, B.C.—On October 22, friends of "Dad" Quigley, Vancouver's senior citizen, congratulated him on the attainment of his 110th birthday. The veteran saddlemaker, who lays claim to this long span of years, looks back on many interesting historical events since he left his birth place, Taunton, Somersetshire, England, many years ago.

Time Is Extended

Edmonton, Alberta.—Hon. Dr. William Egbert will be lieutenant-governor of Alberta until April 1, 1931. His honor has received notice from Ottawa that his five-year term, which expired in October, had been extended. He was asked to continue in the office owing to Premier Bennett's absence in England, and has consented to do so.

Postpone Return Flight

Capt. Errol Boyd Will Not Attempt Trip This Year

London, England.—Captain J. Errol Boyd and Lieutenant Harry P. Connor, who were planning to make a return flight across the Atlantic early next month, have definitely postponed the attempt until next spring.

The two men who flew to England from Harbor Grace, Nfld., 10 days ago, had been planning to use their monoplane "Columbia" for the first round-trip north Atlantic attempt.

When the airmen eventually make the return flight they will do so as owners of the "Columbia," for Sherwin Cottleham, aviation enthusiast in Montreal, has bought the veteran plane from Charles A. Levine and presented it to Boyd and Connor on condition that they do not fly the Atlantic again this year.

Boyd and Connor plan to sail for Canada, October 21, returning to England in the spring.

DISCUSS QUESTION OF VITAL MOMENT TO PROVINCES

London, England.—Before this Imperial Conference committee, under Lord Sankey, Lord High Chancellor, Canada is making a stand for provincial rights.

Hon. Maurice Dupre, Canadian Solicitor-General, supporting the views held by Premier Ferguson and Taschereau, on Ontario and Quebec, respectively, holds the provinces must first be consulted before any amendments can be made to the British North America Act. The question arose in the consideration by the committee of the recommendations of the 1929 conference on operations of dominions laws.

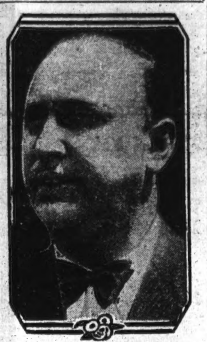

In effect, the Canadian delegate's stand pursued to its logical conclusion would lead to an interprovincial conference or some other mode of consultation before final action on the report of the 1929 conference.

The 1929 conference, composed of legal experts from the various dominions, was a belated aftermath of the status resolutions of the 1926 Imperial Conference. The 1929 gathering studied the conflicts in Dominion legislation and British legislation and finally recommended an Imperial act be passed nullifying the effect of the Colonial Laws Validity Act.

Critics of these recommendations claim they go further than mere repeal of the Colonial Validity Act; that in effect they authorize an amendment to the Canadian constitution. Premiers Ferguson and Taschereau both took the ground that as Canadian confederation was a pact between the provinces, the constitution cannot be amended without the consent of the provinces. Hon. Maurice Dupre is understood to be supporting this view in the committee deliberations.

How the provinces are to be consulted has not yet been determined. There is a belief that the principle and precedent involved in the matter are of greater importance than the actual issues at stake.

TRANS-ATLANTIC FLYER

Capt. J. Errol Boyd, Toronto flier, who, with Harry Connor, United States airman, successfully flew the Atlantic in aeroplane "Columbia," but who was forced down in Cornwall from engine trouble, just a few miles of their ultimate goal—Croydon.

British Airship Workers Worried

Disaster To R-101 May Mean Reduction In Staff

Cardington, England.—Eight hundred workers of the Royal Airship works here and their families are undergoing an anxious time pending decision of the future of airship development following the disaster to the R-101.

Officials of the works met secretly and the fact they also kept their conclusions, if any, to themselves, served to increase the apprehension.

It is rumored there is a proposal to cut labor down by 20 per cent. immediately and, in the circumstances, the workers are profoundly anxious to see an early commencement of the official air ministry enquiry into the R-101 disaster, delay in which is beginning to result in newspaper criticism.

Customary Two Minutes Silence

People Requested To Mark Armistice Day As Usual

Calgary, Ont.—Canada will observe the customary two-minutes of silence on the morning of Armistice Day, Tuesday, November 11. The following statement in respect to it, has been issued from the office of the Prime Minister: "In accordance with arrangements for the observance of Armistice Day, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two-minutes' silence at 11 a.m. on Tuesday, November 11, 1930."

Photograph Total Eclipse Of Sun Niunof Island.—Weeks of patient waiting and this little island in the South Pacific was rewarded Oct. 21, when 41 photographs of a total eclipse of the sun were taken successfully.

AT IMPERIAL CONFERENCE

Photograph reproduced above shows Prime Minister Ramsay MacDonald (right), of Great Britain, and Prime Minister R. B. Bennett of Canada, as they appeared chatting outside the foreign office in London, just before the big empire conference was due to open.

Shamrock Reaches Home

Battled With Bad Weather and Stormy Seas All The Way Across Southampton, Eng.—Battered by terrific seas encountered on her way across the Atlantic, the "Shamrock V," arrived minus her original steering wheel which was washed away when she was 24 hours out of Bristol, Rhode Island.

Captain William Greenock, who brought the America's Cup challenger home, said that the yacht ran into bad weather practically all the way over. At times the boat was held to a standstill.

"It was no pleasure cruise," he said. "If I don't think the weather could have been more unkind for us struck a bad patch just after leaving America."

The Shamrock will be taken to a shipyard for the winter. All aboard were reported well.

Asking Six-Hour Day

Railroad Men Want Shorter Hours With Same Rate Of Pay

Cleveland, Ohio.—The seven railroad labor unions of Canada and the United States have taken the leadership of organized labor in the movement seeking a six-hour working day without reduction of pay.

Officials of the railroad unions estimated that the proposed six-hour day would put to work 50,000 men now unemployed in the railroad industries. The campaign for the shorter working day will be planned in detail at a meeting of 700 representatives of the railroad unions in Chicago, Nov. 12.

CANADA TO BE REPRESENTED AT CHICAGO SHOW

Chicago, Ill.—Canada is again expected to make an impressive showing in the International Grain and Hay Show, to be held at Chicago, November 29 to December 6, in connection with the International Live Stock Exposition. Already entries are being received, some from the most distant parts of the earth. Three samples of wheat have arrived from New South Wales, according to the management.

Distinction for having made the best entry in the grain and hay classes of the exposition this year goes to a Saskatchewan grower, James A. Paup of Langham. In the eye classes of the 1929 exposition, Paup's sample ranked high.

Other successful Canadian exhibitors at the last exposition, who are expected to take part this year, were George Avery of Kelso, Sask., who had reserve championship on a two-rowed barley sample at the 1929 show; W. G. Gibson of Lader, B.C., and William Darnbrough of Lacombe, who had champion and reserve champion respectively on field peas; Joseph H. B. Smith of Wolf Creek, Alberta, and S. Laconte of Birle, Manitoba, who ranked first and second with samples of Red Spring Wheat; and Edward J. Shank of Athabasca, Alberta, who won a blue on an early oats sample, and many other provincial exhibitors whose samples placed creditably high in the competition.

A well known Canadian, Dr. G. I. Christie, president of the Ontario Agricultural College, Guelph, Ont., and a director of the International Live Stock Exposition, is in charge of the International Grain and Hay Show. Through him Canada will be invited to send a judge of the small grain classes. The Grain and Hay Show will also have the active support of the various Canadian seed-growers' associations as well as the provincial departments of agriculture.

Added incentive for Canadian farmers to participate in the 1930 International Grain and Hay Show will be generous cash prizes offered to Canadian winners by the Canadian Co-Operative Wheat Producers Limited; the Canadian National Railways; the Canadian Pacific Railway; and the governments of Quebec, Ontario, Saskatchewan, Alberta and British Columbia. To the Albertan winning a grand championship in either wheats or oats, the Calgary Board of Trade offers a round trip railway ticket and sleeping car fare to the 1931 International Grain and Hay Show.

B. H. Heide, secretary of the International Live Stock Exposition at Chicago, says: "Growers should not be discouraged from taking part this year because of possible decreased quality of their samples owing to unfavorable growing conditions last summer, which since the situation was generally so, the North American continent, will, I believe be generally reflected in most all of the samples submitted."

N. Z. BUTTER WAS SUBJECT TO DUMPING DUTY

Vancouver, B.C.—A dumping duty of 40 cents per 46-pound box was assessed by the Canadian customs on the 38,000 boxes of New Zealand butter which arrived on the Niagara on October 11.

This was in addition to the regular duty of one cent under the old treaty tariff, which expired, on October 12, and represented approximately \$15,000 added impost on the 2,000,000 pounds of butter in the big shipment which arrived just in time to avoid the new duty of 8 cents a pound.

Local butter importers who have conferred with Hon. E. B. Fryckman, Minister of National Revenue, during his visit here, explain that the dump duty was assessed when it was discovered that the invoice price of the butter was four-fifths of a cent below the fair market price in New Zealand at the time of shipment, as advised by the Canadian Trade Commissioner in New Zealand.

Under the new dumping clause the customs department may assess an extra duty equal to the difference between invoice price and fair market price in the country of origin, but only up to 50 per cent. of the fair market price or a fixed price set by the Minister of National Revenue. In this case the dump duty was exactly the difference between invoice and home market price in New Zealand.

At a conference with the minister it was arranged that in future the Canadian Trade Commissioner in New Zealand will advise the customs department here of the fair market price there on the day of shipment, so that valuation for duty here may not be affected by possible market fluctuations while the butter is in transit.

Grain Grading High

Northern Wheat Grades Good Average After The Rain

Prince Albert, Sask.—Grain, threshed before the blizzard, is grading high at local elevators contrary to expectations of some of the most optimistic. At the Pool elevator a number of samples of wheat have been threshed since the rains have been marketed and loads from well-stocked sheaves are grading 80s to 82s and some cases no evidence of sprouting.

Elevator officials estimate the average has been No. 3 and that this will be maintained. Threshing is resumed. Garnet is holding up exceptionally well, this species averaging No. 2 Northern. Wheat from well-stocked crops, it is estimated, will be assured of a No. 2 average.

Will Open Textile Mill

English Firms Would Bring Own Workmen To Canada

Ottawa, Ont.—Admission to Canada of a limited number of skilled textile workers is being sought by an English firm which proposes to build a textile plant at Carlton Place. The mill, which has been closed for some time, will be reopened shortly and will employ 360 hands.

The company wishes to bring from its home plant about 25 people. They will work on the manufacture of woollen coatings and other cloth of a kind never before made in this country.

Nurses Save Child's Life

Belleville, Ill.—Nurses at St. Elizabeth Hospital sitting in two-hour relays with a finger pressed tightly against an incision in the external jugular vein of Josephine Jarvis, 9, of Lebranon, Ill., probably have saved the little girl's life. Flying glass from the windshield of the Jarvis car, driven by her mother, severed the vein and a branch of the facial artery, when the Jarvis car and another collided.

Threshing Resumed

Edmonton, Alberta.—Another good comeback by the Alberta crops will be registered if weather permits, in the opinion of Hon. George Hoadley, Minister of Agriculture. Threshing is already being resumed in some localities as indicated by reports to the department, and if sufficient sunshine continues.

Bank Honored Old Notes

Scarboro, Ont.—At a local banking institution a new Canadian entered to make a deposit. The customer handed to the teller a roll of bills each of defunct and merged banks, including those of the Ontario, Sterling, Farmers, Home and Merchants Bank. The notes will be honored.

JOHN MCCORMACK HAS MANY
SONGS IN IRISH DRAMA

"Song of My Heart," the Fox movie musical romance, starring the world renowned concert tenor, John McCormack, which appears shortly at the Bellevue theatre, strikes high "C" in the scale of enjoyable and memorable entertainment.

Its story is a delightful one of Ireland and America; its characters are humanly and convincingly portrayed by the superb cast and the singing voice of the star is the finest yet heard on the audible screen.

McCormack sings eleven songs, numbered among which are such favorites as "I Hear You Calling Me," "Little Boy Blue" and "Rose of Tralee."

Alice Joyce gives a charming performance as Mary, and her two children are excellently portrayed by Maureen O'Sullivan and Tommy Clifford, two young players who were imported from Ireland especially for this picture.

The herd of 3,000 reindeer purchased by the Canadian Government from an American corporation in Alaska in 1929, will, by the end of the month, resume its journey eastward towards Kittagazui, in the delta of the Mackenzie River, Northwest Territories of Canada, according to information received by the Canadian National Railways. The reindeer began the 1,000 mile journey from Nagatolek in Western Alaska to Kittagazui in December last year and halted at Hunt River, Alaska, for the summer season. It is expected that the herd will reach their intended destination early in the spring of 1931. This herd has been purchased by the Canadian Government Northwest Territories and Yukon Branch to be the nucleus of an additional food and clothing supply for the Eskimos living in the extreme northern area of Canada. Preparations for the reception of the reindeer have been going forward rapidly. The timber and lumber for the buildings, corrals, and other equipment have been moved to the site selected on the 15,000 square-mile range east of the Mackenzie delta and everything will be in readiness when the reindeer arrive.

The Red Deer Advocate has the following to say of the death of Mr. George Gaszowski: "We regret to announce the death of Mr. George Gaszowski, who died at Saunders at 2 a.m. on Monday. George had been suffering from heart trouble for quite a while, and had been advised by Mr. Morgan to get out and take a rest. Late on Sunday he had a severe attack, and Messrs. Morgan and Williams were called. They did all that was possible to alleviate and try to stimulate the heart. Dr. A. J. Fisher arrived and also did all that was possible, but George did not rally. He passed away in his chair. Mr. Gaszowski was well respected in the locality. His position was accountant for the Big Horn and Saunders Creek collieries. He was a great sportsman. All join in extending to Mrs. Gaszowski heartfelt sympathy in her bereavement. The name generally used by the family was George Gasowski. He was about fifty years of age and of Polish descent. He had lived and served at war in France."

An American plays a giant guitar, eighteen feet long, by running up and down it, plucking at the strings. It is said that he has had the instrument since it was a little ukelele.

P.T.A.Y. PICKUPS

Half the advice you accepted was wrong.

Risk is what enhances romantic adventures.

Rage is something we all regret if we have any sense.

The burglar does his haymaking while the sun doesn't shine.

If sinners won't concede that they are "lost," you can't save them.

Happy is the wife who believes that her husband is the best man on earth.

It is true the poor may be happy if they don't develop millionaire tastes.

Man wants but little here below—but it's his privilege to keep right on wanting.

Economy is mostly practised, not from principle, but because one hasn't the money.

If a man's wife will let his business alone, she can boss him every other way.

The best way to keep the boy down on the farm is to try to keep the farm or the boy.

A great poseur in a little town is he drummer who swings aboard after the rain starts.

Families are now as vain of an automobile at the door as they formerly were of a piano in the parlor.

If you want to wake a sensation in a boy's makeup, give him a dollar when he expects a quarter.

"Pursuit of happiness" is too much held up as an ideal, as if there were no earthly duties and obligations.—Exchange.

SALTER—HOWCROFT

A very pretty wedding took place at the Vancouver Heights Baptist church recently, when Gladys, eldest daughter of Mr. and Mrs. Dan Howcroft, of 3952 Georgia Street, late of Jilcrest, Alberta, was united in marriage to Mr. Theodore John Salter.

The bride, who was given in marriage by her father, wore a gown of pale pink georgette, and carried a shower bouquet of apple roses and maidenhair fern. Attending as matron of honor was her sister, Mrs. Olive Greer. Her dress was of chocolate brown, with carnations and maidenhair fern.

Miss Lillian Salter, sister of the groom, was dressed in pale green, and she also carried a bouquet of carnations. Mr. James Ash supported the groom.

The wedding march was played by Mrs. S. Humphrey. A reception was held at the home of the bride's parents, the table being centered with a two-tier wedding cake.

Mr. and Mrs. Salter will reside in Vancouver, after a short honeymoon in Victoria.

COWLEY HAPPENINGS

Tony, Peggy and James Gerry and Glen White left by motor for Vancouver on Thursday, where they will make their future home. Their presence in the district will be missed, as they had resided here for a great number of years and had made a wide circle of acquaintances and friends.

Mr. and Mrs. Harold Cleland were recent visitors to Lethbridge.

The Ladies' Aid is making preparations for a bazaar and concert, which will take place shortly.

A surprise party was staged in the senior room of the Cowley school on Wednesday afternoon, in honor of Master Sandy McEwen. Entertainment took the form of a debating contest, after which Sandy was presented with a fountain pen, a gift from the school on his leave taking to Blairmore, where he will reside in future. The occasion was celebrated with a generous repast of home-made candies and fruits.

TENOR MAKING SONG HISTORY

John McCormack, who comes to the Bellevue theatre on Thursday, Friday and Saturday of next week in his first starring audible Fox movie production, is doing for song in America what Dante did for literature in Italy and what Spenser did for literature in England.

There are no indifferent audiences when John McCormack sings. McCormack audiences are composed of the really cultured men and women of the communities where he appears who listen spellbound while a great artist sings great songs and proves to them that an artist and a song may be great without being mysterious.

Actuated by the thought that it would be a physical impossibility for McCormack, within the span of years allotted to him, to appear in all localities where his voice and his presence was desired, Winfield Sheehan, vice-president and general manager of the Fox Film Corporation solved the problem by inducing McCormack to sign a contract to act, sing and talk in a picture production.

Through the marvel of Fox movie-tone this great voice may now be heard everywhere.

In the Fox picture directed by Frank Borzage, the world's greatest tenor sings eleven numbers, four of them in foreign tongues.

The supporting company includes, John Garrick, Maureen O'Sullivan, J. M. Kerrigan, Farrell Macdonald, Alice Joyce, Effie Ellsler, Tommy Clifford and Emily Fitzroy.

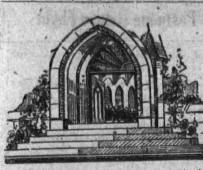

Reports from Trail state that on the skeleton of the hockey team remains in that town for the winter, a team which for three years has carried the black and gold into the semi-finals of the Allan cup playdowns. Most of Trail's stars will play in new forms this season. Jollett Houreggs will break into professional ranks with Seattle; Clarence Red dick remains in Trail; Mikky Brennan plays with Port Arthur, O. Gustafson with Turner Valley.

Mackie with Turner Valley, Ar Mackie with Kimberley and Geoff Hazard with Rossland. The new Trail team will consist mostly of young fellows, with the following old-company additions: Carl Kendall, Ralph Garland, "Curly" Wheatley and Clarence Reddick.

October the 11th, being the seventeenth anniversary of the marriage of Mrs. James Holmes, her neighbors and a few of her Bellevue friends presented her with a few gifts, as owing to ill health she has been confined to her home the past three months. Mrs. Holmes invited all who had remembered her to her home in Bellevue on the 10th. A very enjoyable evening was spent by all present. Readings were given by Mrs. George Goodwin and Mrs. Joe H. Bosley. The singing, in which all took part, was a pleasant feature, especially the song "Today is Monday." Dainty refreshments were served by Mrs. Holmes.

The announcement was made last week that the inter-urban auto stage, plying between Spokane and Cranbrook, had been taken off for the winter, the reason being that the cost of operation was too heavy at this time of the year. The chief drawback, however, was the fact that most of the business was inter-Canadian and the bus to carry passengers in Canada must have duty paid on the vehicle used for the service. It is promised that as soon as the roads are clear in the spring, the service will be resumed. [We learn, however, that the service to Spokane has already been resumed.]

A. E. Appleyard, of Minneapolis, is expected to arrive in the city tomorrow, on a visit to his daughter, Mrs. A. B. Sanborn. Mr. Appleyard was the original promoter of the old Bull River Power Co., which has now developed into the East Kootenay Power Co.—Kimberley Press.

Rev. H. N. Kunkle, of Toronto, secretary for Canada of the mission to lepers, will tell of the world wide work being done for lepers.

The Ladies' Aid will hold an afternoon tea and pantry sale on Saturday, November 1st, from 3 to 6 in the mission hall. Buy your week end cooking from the ladies.

MANUAL TRAINING

Arrangements have been made to have a third class in last year work. There are three vacancies. The first three boys to register will be accepted. This class meets on Thursday, November 6th, at 7 p.m. Fee \$1.00.

SALVATION ARMY, COLEMAN

Sunday, 11 a.m.—Holiness meeting; 2 p.m., Directory class for the young people; 2:30 p.m., Company meeting; 7 p.m., Salvation meeting.

John Wanamaker made millions as a retail merchant. Of newspaper advertising he said: "When the times are hard and people are not buying as the very time that advertising should be heaviest. You want to get people in to see what you have to sell and you must advertise to do that. When the times are good they will come largely of their own accord, but I believe in advertising all the time. I never stop advertising."

According to a telegram received by Howard Stutchbury, Alberta's trade commissioner, from the Board of Railway Commissioners, Alberta coal movement to Ontario under the special \$6.75 per ton rate commenced on Monday last, instead of December 1st, as intended. Different mines have orders on file for Ontario, awaiting December 1st, but now that coal can go forward at once, confirmations of immediate shipments to Ontario customers are being received. The operators feel that they will now have a chance at the Ontario market at the right time, and be able to prove if the Ontario market is the potential one it was hoped to be.

We understand that applicants for relief work or relief funds under the new federal - provincial - municipal measure will be banned from purchasing beer or intoxicating liquors. This is very well, but the onus for breach of the regulation should be entirely upon the shoulder of the relief party and not attachable in any way to a hotelkeeper or other party who may in a legal way give or sell beer or liquor to him. It is most unreasonable to expect that hotelmen should have to ask his patrons whether or not they are in line for relief.

United churches throughout the Dominion have the opportunity of celebrating four anniversaries, that of the Methodist, Presbyterian and Congregationalist elements of their congregation, as well as the consummation of the pact of union. The Blairmore United church has the added privilege of being able also to celebrate the anniversary of the founding of the local union with the Baptist acquisition.

In the reappointment of Rev. Bro. W. C. Smalley as chaplain of the Sovereign Grand Lodge, I.O.O.F., Canada now has two offices in that body.

Canadian Pacific Contributes to Relief of Unemployment

E. W. Beatty, Back From Inspection Trip, Voices Confidence in Canadian West Despite Depression—Crop Outlook Good—Distinguished Party Makes Comprehensive Tour.

E. W. BEATTY

Confidence in the ability of the Canadian West to face and overcome its problems, and a practical plan for assisting in the relief of unemployment were outstanding features of the annual inspection trip through the West just completed by E. W. Beatty, Chairman and President of the Canadian Pacific Railway Company, and a party of Directors and distinguished guests. Following upon the trip, Mr. Beatty has announced the Company's contribution to the general plan for the relief of unemployment in Canada as follows:

"After Conference with the Federal Government, an arrangement has been entered into whereby in consideration of the assumption by the Government of interest charges for a specified period, the capital expenditure involved, the company will immediately embark on certain works, which had been approved for the future but which in ordinary course would not have been approached until 1931 or 1932. In framing the programme, we have had particularly in mind the desirability of providing some relief to the agricultural industry by furnishing work for farmers and their animals, and by carrying transportation facilities to those districts where the length of haul makes the railway imposes an undue burden on the producer's time and resources. Other works on the list are designed to absorb as much as possible of the surplus labour in the towns and cities."

"The program follows: Track will be laid on the branch line now graded from Crowfoot, Western a distance of twenty-eight miles, and on the Lacombe and North-Western Railway from Thornby to a point of junction with the Calgary and Edmonton, 22 miles. Construction will proceed on the section of the Nipawin-Prince Albert line from the end of the present grading to Henribourg, a distance of approximately twenty miles, from Medatated to a point on the Debden-Meadow Lake line a distance of thirty-five miles, from Cusworth to Rosetown, a distance of twenty miles, and finally a link will be built connecting the tracks at the North and end of Dog Lake. Rock

ballasting will be taken in hand on an extensive scale on the Lacombe subdivision, on the Galt subdivision, and on the Alfonsa district, all in Eastern Canada. Gravel ballasting will be done on the New Brunswick district. One hundred miles of track in Ontario will be relaid with a heavier rail section, and one hundred and fifty miles of the heaviest rail section so far used in Canada will be laid in British Columbia. The manufacture of these rails will provide much employment in Canadian steel plants, in addition to the labour involved in the actual track work. It is intended also to start at once on the task of providing more commodious station accommodation at Regina. Surveys are now being made which will probably justify shifting on some grade revision work along the Thompson River in British Columbia and provision has been made for the necessary outlay."

Discussing present conditions and future prospects in general on his return to Montreal, Mr. Beatty said: "We have come back greatly in mind the outlook for a steady progression of general business with, in all likelihood, a well defined upturn in volume making itself evident next year."

"Despite conditions in the West's grain markets which leave much to be desired, Western Canada continues to look to the future with confidence, and apparently has quite made up its mind that it will take much more than the present recession in business to work any permanent harm to the West, or even to retard seriously or for any length of time the development which has been going forward over the past several years."

"The crops were, on the whole, very encouraging. The total yield will be considerably above that of last year and greater than was anticipated a month or two ago. While in some districts they were far from good, in the north and more particularly in the Peace River country they were excellent. The quality, too, is generally good, and there is no danger of rain and snow have delayed threshing and may, to some extent, have lowered the grade. The decline in wheat prices naturally has had a serious effect upon the purchasing power of the people, and a return to such pronounced pros-

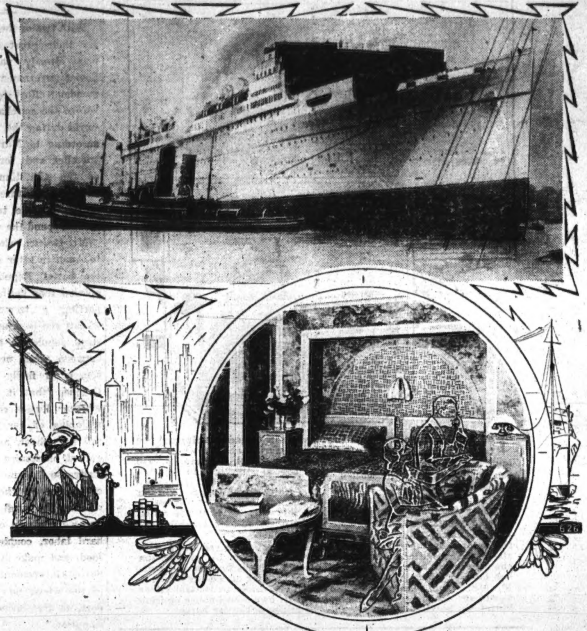

perity as we have experienced in the past depends to a large extent upon the future course of the wheat markets and that of the markets for such other commodities as this country produces in large quantities. The outlook in this respect is not at the present time clear, but I see no reason to believe that a return to more active business conditions should not be accompanied by at least a gradual upturn in values."

"In the meantime the West is not grumbling. Farmers and business men are facing conditions as they find them with a stout courage born of an unshakable confidence in the country in which they live. There are already evidences that present conditions are bringing about readjustments that in the long run will establish agricultural industry upon a sounder basis. A much wider spread of mixed farming is one of these. If the decline in wheat price effects this in a general way throughout the West, it will not have been an unmet evil."

Mr. Beatty and his party visited the Peace River country on the way later passing through Banff and Lake Louise to the coast. On board the "Princess Norah" they encircled Vancouver Island and spent two days at Victoria. The return was over the Kettle Valley Railroad to Kimberley and Trail where the Sullivan mine and the Consolidated Smelters were visited.

The fruit-growing industry of southern British Columbia was found to be in excellent shape. Large quantities of fruit were being shipped and the quality was reported good. From British Columbia the party returned north to Prince Albert where Mr. Beatty's special train inaugurated a daily service between Regina and that city over the new Langrune-Prince Albert branch. At Nipawin the party crossed the Saskatchewan River on the new bridge and inspected the branch line work going forward there. The return was through Winnipeg direct to Montreal. Travelling with Mr. Beatty were Sir Herbert Holt, Sir Charles Gordon, W. A. Black and R. S. McLaughlin all of whom are Canadian Pacific directors. Others in the party were Sir Arthur Currie, Maj.-Gen. the Hon. S. C. McBurn, Hon. Senator Smeaton White, Mr. Beaudry Leman and Dr. W. W. Chipman.

A Mid-Atlantic Hello

"Hello Mother. We're having a wonderful voyage, left Southampton day before yesterday and arrive Quebec day after tomorrow." The young man whose phantom outline shows in the picture of one of the deluxe apartments of the new Canadian Pacific liner Empress of Britain will be able, when the 42,500-ton ship enters service between Quebec and Southampton next June, to talk to anyone in Europe or the Americas for the first time in Canada's maritime history. Above, a recent photograph shows the new liner nearing completion on the Clyde, and the telephone installation that will be a feature of every first class bedroom or apartment. Direct connection through the ship's switchboard with any land telephone will make calling Vancouver or Glasgow from mid-Atlantic just a matter of lifting the receiver and asking for the number. The Canadian Pacific announces that the wireless telephone will be so powerful that continuous touch will be maintained with both sides of the Atlantic. The magnificent new Empress of Britain, 760 feet long, 97½ feet wide and with a speed of 24 knots, will bring Cherbourg, Southampton and Quebec more than a day closer.

THE PASS SIXTEEN YEARS AGO

(The Blainmore Enterprise, 1914.)

Sept. 4.—A pleasing event took place at the home of Mr. and Mrs. W. O. Evans on Tuesday evening when their daughter, Miss Blodwyn, became the wife of Mr. Owen Morgan. The ceremony was performed by Rev. W. H. Muncester, B.D.

The officials of the West Canadian Collieries, Ltd., are to be congratulated upon the eminently practical force their patriotism takes. The following is the gist of a notice appearing at the mine office. "Positions will be held for volunteers until their return, and no charge for rent or coal will be made during their absence."

IN PICTURESCUE NOVA SCOTIA

Nature has been lavish in distributing her charms throughout this most attractive province by the sea, and in the Bras d'Or Lakes district a scenic gem has been created. The lower illustration gives a typical view of this attractive section of the Maritime Provinces. Apart from its interesting beauty spots, Nova Scotia is also noted for its salmon streams, and the picture at the top shows an exciting moment in this sport of kings, when one of the gamiest of Canadian fish is netted after a fight of sometimes more than half an hour's duration. So well known are the salmon streams of Nova Scotia that anglers come from all over the continent to fish their waters.

A number of citizens took to day off last week and endeavored to improve the appearance of Blainmore's commercial thoroughfare. Men and teams came into service and a pattern has been set for other towns to adopt during dull times.

Born at Bellevue, to Mr. and Mrs. Noble McDonald, a daughter.

Born, to Mr. and Mrs. George Jopland, Bellevue, a son.

Last week 106 bodies were recovered from the Empress of Ireland. Only a few have been identified.

The marriage of Miss Annie McLeod to Mr. John McAuley took place at Coleman on Saturday.

Sept. 11.—J. E. Lusnier, of Medicine Hat, formerly of Lethbridge, was instantly killed on Friday afternoon at his farm, a few miles north of the 'Hat, when a bullet from a rifle he was carrying passed through his shoulder in close proximity to the heart.

President Woodrow Wilson has set apart October the 4th as a day on which the people of the United States are to pray for the speedy ending of the great European war and early restoration of peace.

Captain Bennett, one of the best known drivers on the continent, was crushed to death at Macleod on Monday while travelling at a mile-a-min-

ute dare-devil clip.

A daughter was born to Mr. and Mrs. Fred Dennison on Sunday last.

The new incline from the West Canadian Collieries' Greenhill mine was set in operation on Saturday.

Rev. J. Maclean Beaton, at one time in charge of the Presbyterian mission here, but of late occupying one of the Calgary pulpits, has been elected moderator of the Calgary presbytery.

Sept. 18.—News has been received of the death of Mr. W. Barrington Reilly, president and managing director of the Rocky Mountain Cement Co., Blainmore, which occurred at Calgary yesterday.

A new daughter has been left at the home of Mr. and Mrs. H. Barlas at Bellevue.

Charlie Ray sustained injury to his shoulder while following his vocation as linemen near Bellevue.

E. J. Pozzi has secured the contract for considerable cribbing along the main river through Blainmore.

Red and yellow are colors that the human eye can detect at great distances. That explains the festive looking cars that will appear shortly on the lines of the Canadian National Railways. They will not be painted to put gait into railroading but to relieve the minds of the men concerned in operating, who are continually exerting themselves to find new devices to make railroad crossings proof against the reckless motorist.

It used to be hard to find a needle in a haystack, but now it's just as hard to find one in a woman's hand.

THEY MARRY YOUNG

IN NEW YORK

One girl of 12 and another of 13 were among 453 New York children who left school to get married last year, the annual report of the superintendent reveals.

At the age of 14, twenty boys and girls were dropped from the rolls because they were married. Eighty-three of the brides and bridegrooms were only 15. The rest of the 483 were sixteen-years-old.

Something of their social background is revealed by the fact that 355 of the 483 were students in the continuation school, which is operated for boys and girls who leave school and go to work before they are seventeen.

Bring Home Superb Heads

The hunting season is in full swing in the Province of Quebec. In the middle of October a party of three Nimrod left the Gray Rocks Inn, St. Jovite, Que., and took a hydroplane trip into the north to investigate moose hunting prospects. They got a big surprise and one of the highlights of their careers as hunters of big game. One of the party bagged a moose with the magnificent spread of 66½ inches; another of them shot a 60½ inch head and the third also got a trophy which though smaller than either of the other two, would have ranked high in any average moose hunt. They report that

the section is unusually well stocked with the big animals. The object of the party was to get quickly into the north to spy out the land and come back later for the real hunting with all its pleasurable hardships of portaging, camping out, canoeing one way through unknown or almost unknown territory and ending up by lifting one's brains and experience against the instinct, sagacity and wariness of the moose. They have returned to tell us of a Mecca for hunters of moose in the North. Lay-out shows the great moose spread with hydroplane in background, and Tom Wheeler, proprietor of the Gray Rocks Inn, with guide.

Canada's First Electric Tug

The first electrically-driven tug to be built in Canada was launched at LaSalle, Que., recently, when the "Princeton" Diesel-electric tug for the Canadian Pacific Car and Passenger Transfer Company's service between Prescott, Ont., and Odessa, N.Y., slipped gracefully into the waters of the St. Lawrence after the traditional bottle of champagne had been broken across her bows by Mrs. Duff, wife of M. McDuff, manager of the Canadian Pacific Great Lakes Steamship Service. As a pioneer

feature in Canadian shipping, the Diesel-electric engines with which the new vessel is equipped, are of special interest to marine engineers. Each of 500 H.P., they are directly connected to twin generators capable of delivering 330 kilowatts, each at 250 volts, when operated at 245 revolutions per minute.

In operation, a car barge with three tracks for 16 hundred-ton cars, will be lashed to the starboard counter of the tug which it will be possible to control either from its own wheel-house or from the bridge of the car barge.

FEWER CRIMINALS IN GREAT BRITAIN

A London paper says: The number of people sent to prison for criminal offences in 1928—24,423 men and 6,026 women—was the lowest on record, according to the report of the prison commissioners.

In six years there has been a decrease of about 7 per cent in imprisonment of men and 32 per cent in imprisonment of women.

The number of imprisonments, however, in civil process—13,483—was the highest since the war.

Over 7,000 prisoners were committed under wife maintenance and affiliation orders, 2,448 in default of payment of rates, 3,448 by county courts, and 151 in default of income tax.

The report shows that there were more floggings in prisons than for several years. In local prisons corporal punishments numbered 13 and in convict prisons 3.

Dr. Griffiths, the medical commissioner, states that the new dietary had been a success.

"It is no doubt more appetizing," he says, "and some prisoners would

like more. The food value is, however, sufficient for their needs, and prisoners have become fitter to do their work."

The prison death rate was only 3.9 per 1,000.

The new French 10,000-ton cruiser Duplex was launched last Thursday. The Duplex represents an attempt of France, without violating in any way the Washington treaty, to meet the strength of the latest German warship, the Admiral Scheer, which Germany is completing under the treaty of Versailles, and which will carry eleven-inch guns.

Four and twenty Yankees, feeling rather dry, Motored into Canada to get a drop of rye.

When the keg was opened, they all began to sing: "Who the hell is Hoover?" and "God Save The King."

Girls, when they went out to swim Once dressed like Mother Hubbard Now they have a holder whom— They dress more like her cupboard

RUSSIA MAKING A TREMENDOUS EFFORT TO MARKET HER PRODUCE

With two of the five years set apart for their great agricultural experiment already passed, the Russian Soviet government is planning a tremendous effort to lay their produce before the purchasing powers of the world during the next twelve months, according to Marc T. Greene, world traveller and foreign correspondent of the Christian Science Monitor, who passed through Winnipeg recently, enroute to Vancouver where he will spend the winter.

Mr. Greene, who has just returned to America after an extensive visit to the Soviet Republic, expressed his opinion that "although Russia is exporting a tremendous volume of wheat, she is practically starving her rural population to do so. The line between actual necessity and starvation is so finely drawn," said Mr. Greene, "that it is just a question whether Russia can continue on the rationing of her present population, sell her wheat, and with the money gained, mechanize her agricultural industry so that next year a still larger amount of wheat can be sold; or whether the rural districts will crack under the strain of long hours and hard labor, coupled with insufficient food, and make it necessary for the Soviet Government to turn back some of the wheat now ticketed for export, to the farmers for home consumption."

In speaking of Russia as a whole, Mr. Greene went on to say that conditions there are, if anything, better than the popular conception of them. The standardization of wages seems to be working out very well, and with the recreation halls, theatres, and many amusements and holidays provided for the workers of Russia, at the government's expense, they are, if anything, happier than in the days of the old regime. At any rate, they are no worse," said Mr. Greene.

Mr. Greene left Winnipeg on the Continental Limited for the Pacific coast where he will stay for a few months. From there he goes on to Honolulu, and from there he has tentative plans to visit China, where he will study conditions in the provinces through which the nationalist and insurgent troops have been fighting for the past number of years.

PROTECTING THE CONSUMER

Premier Bennett is evidently undertaking to do an unheard of thing. Appearance indicate, and he so asserts, that he proposes to put into effect his pre-election promises. It is no wonder that his opponents are inclined to be skeptical. Canada's new prime minister, however, appears to be an unusual man and the unexpected may happen. Hitherto political platforms were said to resemble the platforms on railway cars and were intended not for the purpose of riding upon but to get in on.

One promise which the premier made during the campaign, and to which The Acadian referred at the time, was that he would not permit, if placed in authority, producers who benefitted by a protective tariff to take advantage of it to impose excessive prices upon the consumer. Here, therefore, as this paper has pointed out, that has been the worst feature of a policy of protection. Under it Canadians were paying excessive prices for articles produced in Canada by United States manufacturers. Automobiles were a sample, but there were many other things for which we have been paying more than we should.

The newly proposed tariff changes are very definite. They propose that when it can be shown that such advantage is being taken by the protected producer the government may by order-in-council reduce the protection to the same extent. Such a course would be pretty certain to assure right dealing. Protection is a very fine thing for the producer, but the time has certainly come when the consumer should also be taken into

THE New NASH

A NEW DEAL FOR TODAY'S DOLLAR

consideration. He has carried the heavy end of the stick too long already.

It's all very well for Toronto to boast of having the tallest skyscraper in the British Empire; but don't overlook Blairmore, please. Blairmore's skyscraper, just completed, is exactly four thousand and two feet higher.

Love at first sight is possible, but it is always wise to wipe your glasses and take a second look.

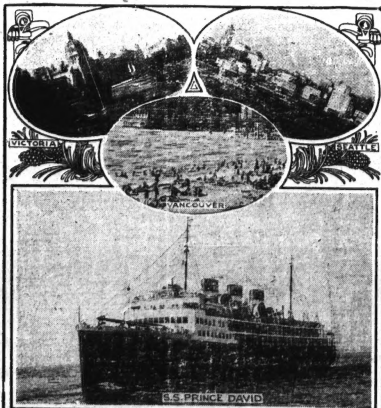

A man and his wife were bathing at the beach, when they were joined by a friend of the man, who introduced him with some time and trouble to the woman sitting opposite to him in a street car. She bowed. He looked puzzled for a moment, and then exclaimed, Oh, how do you do? I really didn't know you with our clothes on!

Little hunks of powder, Little slabs of paint— Oh, boy! she's only fifty, But she looks as though she ain't.

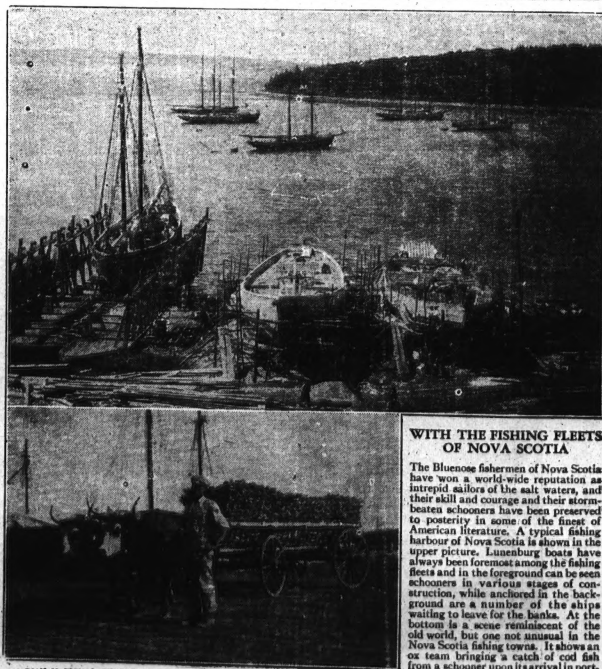

Counsel—"Now, answer yes or no. Were you or were you not bitten on the premises?"

Witness—"Anatomy, sir, ain't my strong point, but I can tell you I couldn't sit down for a week"—Ex.

During a leisure hour in Toronto recently, we took occasion to count the number of Browns and Smiths contained in the city telephone directory. We found 1208 Browns and 1862 Smiths. Four hundred and thirty-seven of the Smiths carried the plain christian name John.

THE Ports of Vancouver, Victoria and Seattle are again being served by the Canadian National Steamships. This service was resumed by S.S. "Prince David," one of the beautiful new steamships constructed during the last winter for the company at Birkenhead, England. Under the new schedule S.S. "Prince David" leaves Vancouver every afternoon at 2 o'clock, reaching Victoria at 4:45 p.m. and Seattle at 10:30 p.m. Returning the ship leaves Seattle at 1 a.m., reaching Victoria at 7 a.m. and Vancouver at 12:15 noon. Excellent accommodation is provided for 334 first-class, 70 third-class and 1,500 day passengers. There is plenty of room for motor cars. The new ship has beautifully appointed public rooms, radio, beauty parlor, barber shop and an automatic telephone service throughout the ship. Next Spring this service will be augmented by S.S. "Prince Robert."

WITH THE FISHING FLEETS OF NOVA SCOTIA

The Bluenose fishermen of Nova Scotia have won a world-wide reputation as intrepid sailors of the salt waters, and their skill and courage and their storm-beaten schooners have been preserved to posterity in some of the finest of American literature. A typical fishing harbour of Nova Scotia is shown in the upper picture. Lunenburg boats have always been foremost among the fishing fleets and in the foreground can be seen schooners in various stages of construction, while anchored in the background are a number of the ships waiting to leave for the banks. At the bottom is a scene reminiscent of the old world, but one not unusual in the Nova Scotia fishing towns. It shows an ox team bringing a catch of cod fish from a schooner upon its arrival in port.

Detroit is connected with Canada by a tunnel, and the Ohio State Journal remarks: "We just wonder if it really shouldn't be called a tunnel."

CORBIN HAPPENINGS

(From Our Own Correspondent)

Mrs. W. Sykes gave a birthday party in honor of her young daughter Janet on Friday afternoon. A number of youthful guests were present.

Misses Annie Hoffman and Mabel Knight entertained a large number of friends at a party in the club hall on Saturday night last. The evening's enjoyment was passed in dancing, thus giving all guests a most enjoyable time.

Mrs. Dr. Elliot entertained a number of guests at a bridge tea on Tuesday evening, in honor of Miss A. Robertson. Miss Robertson, who has been visiting here, has returned to her home in Great Falls, Montana.

A meeting was held this week for the purpose of organizing a Ladies' Aid to work in conjunction with the United Church.

A bridge and tea social was held in the lodge hall on Thursday afternoon.

The members of the Anglican Ladies' Guild journeyed down to the "Y" on Thursday evening last to meet at the home of Mrs. James Barnes.

A number of local citizens motored to Blairmore, Bellevue and Fernie on Saturday evening, taking in the talks.

Miss Eva Baird, of Michel, was a visitor to town this week.

The biggest novelty dance of all time is being held in the club hall on October 31st, under the auspices of the hockey boys, and they want a good crowd to help them out. These boys have got together and worked to build a rink and are raising funds to buy the necessary materials. At "the rate sport is advancing" in Corbin, first thing you know there will be another hockey team to compete with the old reliables, such as Blairmore, Coleman, Bellevue and others that have so long held the enthusiasm of the hockey fans. This last year was the first for the local boys in going out to play baseball. What was the result? Out of twelve games played, ten were won and two lost—not bad for a first year. If they can do this at baseball, why shouldn't they give an equally good account of themselves in hockey. We want everybody to turn out and support them this Friday evening.

IT CAN BE DONE

Don't say it can't
When it can be done.
No matter how hard the work,
The thing to do
Is to see it through,
Not idly to sit and shirk.

The men that win
In the race of life
Are foes to fear and doubt;
They toil with zeal
For a high ideal,
Grim failure they put to rout.

Don't say it can't
When it can be done.
Whatever your task to-day,
Stand up like a man;
Say: "I know that I can."
Right effort will show the way.
—Grenville Kleiser

A Negro preacher who had traveled a little had become much impressed with some of the ceremonials he had witnessed in other churches, and decided he would try the effect of incense on his congregation.

He took one of his deacons aside and instructed him in the way it should be done. The incense was to be put in a tin receptacle with an improvised handle, and lighted in the porch as soon as the congregation became seated. Then, at a signal from the minister, the deacon was to walk up the aisle in the orthodox manner.

During the service the signal was given, but nothing happened. After two or three ineffective repetitions the minister chanted the words "O whar, O whar am de incense pot?"

And from the back of the church his deacon intoned the response: "It's down in de aisle, 'cos it's too damn hot!"

The September issue of The Canadian Elk contains a picture of Sam Lesser, of Vancouver, formerly of the Crows' Nest Pass. Sam is credited with thirteen years of chairmanship of the Vancouver Elks' flag day and charitable activities.

Gumbo: "I'm the happiest man alive. I've got the finest wife in the country."

Mudd: "Yeah, that does make a man happy, having his wife in the country."

So much daylight has been saved in Montreal, Toronto and Newfoundland this year that the store tanks are overflowing with the silly stuff.

A crime has been recorded at Florence, Italy. Bruno Irimini and his sweetie were making love in the park. As he kissed her, a policeman walked up and arrested him. For the huge offence of kissing his fiancée, Bruno was given three months and ten days in jail, while the young lady was given three months in the workhouse for willingly submitting to the kiss.

Down in Toronto, recently, upwards of one million persons paid admission to see the national exhibition, chiefly a garden. In Blairmore, on Tuesday night of this week, one hundred persons paid admission to see the same thing—a Garden. But they were well repaid in Rev. J. H. Garden's splendid rendition of Scottish life, wit, etc.

Nine members of the Chevrolet "100 Club" left Calgary last evening to attend the big convention being held in Victoria on Saturday. Mr. E. Linville, of Blairmore, attained a very high percentage as a salesman, fully qualifying him to attend the convention, but he was unable to get away.

I. W. C. Solloway, of the brokerage firm of Solloway, Mills & Company, has pleaded guilty to the charge of "bucketing." He has been fined by the Ontario court in the sum of \$200,000 and costs, while Harvey Mills, a partner, was fined \$50,000 and costs.

And speaking of Dirt Roads, have you ever heard this one?

A ducky and his brown sweetheart, followed by three pickaninnies, applied to the clerk of a Southern court-house for a license to wed. The clerk eyed the assemblage doubtfully:

"Whose children are these?" he asked.

"Dey our'n," was the ready reply from the man.

The clerk scandalized, being new at his post. "You ought to be ashamed of yourselves, waiting to get married till you have a family half grown—"

"Jedge, you'll have to excuse dat," interrupted the 'bride' sweetly. "De roads out our way is so bad."

THE STAR BOARDER

The pet of the landlady. The idol of the cook. The envy of the newcomers, the casuals, the transients around the dinner table.

Yes, the star boarder gets the best of it. He doesn't pay more; he doesn't eat more. But he has been there a long time; he never goes anywhere else—wouldn't dream of leaving. He knows the ways of the house, and the house knows the ways of the star boarder.

All the boarders get service—but

the star boarder gets super-service.

The star boarder is the regular customer.

Organized service to its customers is a highly developed specialty of The Enterprise to all its customers. But our regular customers, whom we know so well—and who know us so well—naturally and inevitably are the best served. Their requirements are known, their preferences are understood, and they for their part know from experience the many ways in which we are able to serve them.

Quebec Lt.-Governor Visits Festival

His Honor, the Lieutenant-Governor of the Province of Quebec, Hon. H. G. Carroll, (right in above illustration) and George Stephen, vice-president in charge of traffic, Canadian Pacific Railway, are here shown photographed against a background of handicraft work in the section of the Quebec Festival at the Chateau Frontenac Quebec, devoted to that work. With them are shown Madame

Napoleon Lachance and Phileas Bedard, habilitated handicraft worker and folk song artist and two of the most colorful participants in the festival, which was opened by His Honor, October 16 and closed October 18, and was one of the most successful of the long series of similar folk song and handicraft revivals covering the whole Dominion that have been sponsored by the Railway in the past few years.

A MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat. When you take vitalizing Kruschen Salts for a few days that old indolent, aching, chair-felling desire to get up doesn't matter how fat you are—the urge for activity has got you—and you're stepping lively.

And best of all you like this activity you walk a couple of miles and enjoy it—you thought you'd never do it again, but you find you're getting as spry as ever—the old tingling, aching feeling reaches even your feet.

Kruschen is a combination of the six salts Nature has already put into your body to keep you alive—if it were not for these vital salts you could not live.

One bottle is enough to prove to you that Kruschen will make you feel younger—spryer—more energetic. You'll enjoy life—every minute of it. A half teaspoonful in a glass of hot water every morning is all you need to keep healthy—keep your stomach, liver, bowels and kidneys in splendid condition—keep your system free from harmful toxins and acids.

WORLD HAPPENINGS BRIEFLY TOLD

Forty nations have agreed to send delegates to the first International Air Security Congress in Paris, December 10 to 23.

The British Government has announced that the official British census of population, taken every ten years, will be made on Sunday, April 24, next.

The prospect is held out that there may be a reduction in the United States tariff rate in the Canadian delicacy, maple sugar, before the sap begins to run next spring.

A woman, Miss L. R. Purser, Maidmised, England, has won the King's silver cup for the best cultivation of root crops, at the East Berkshire Agricultural Show, for the first time in 90 years.

Felix Lejore, French flyer, who cracked up his plane, October 18, near Orsh, White Russia, in an attempted flight from Paris to Uta, was arrested on charges of flying over Russia without a permit.

William Lajmodiere, former member of the Manitoba legislature, is dead at his home in Lorette, Man., aged 71. He was a descendant of Marie Anne Gaboury, the first white woman in Western Canada.

The appeal of the Toronto Evening Telegram against the judgment of Mr. Justice Jeffrey, who awarded \$5,000 to former Mayor Sam McBride in a libel action, was dismissed by second divisional court at Osgoode Hall.

Reports reached head office of the Banque Canadienne Nationale to the effect that a branch at the village of Lac Frontiere, 15 miles from St. Camille, Beauce County, Que., had been held up and robbed. About \$1,200 was taken.

Reaching its lowest level since pre-war days the price of bread dropped to six cents a loaf here at Halifax. The reduction is attributed to a steadily falling wheat market. Consumers now are paying half the price asked a month ago for a 24-ounce loaf.

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. 34, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

Relief Activities

Hon. Howard McConnell Reviews Relief Work in Saskatchewan Drought Areas

Details of relief activities in the dried-out areas of Saskatchewan undertaken by the Provincial Government and by the municipalities affected, with governmental aid, are given in a statement issued for publication by Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government. Text of the statement follows:

"In connection with relief given to farmers in the dried-out areas of our province last year, the Provincial Government distributed \$919,000. This was made up as follows:

1.—Freight paid by province on fodder shipped to such areas	\$450,000
2.—Relief roads built by province	\$350,000
3.—Relief provided by Government for flour, fuel and fodder together with seed grain in Local Improvement Districts in such areas	\$119,000
Total	\$919,000

"The rural municipalities in such areas contributed \$1,954,000 for the relief of farmers in such areas, particulars of which are as follows:

1.—Subsidies advanced by municipalities to farmers within their borders for fodder purposes	\$1,760,000
2.—Subsidies advanced by municipalities to farmers within their borders for seed grain	\$204,000
Total	\$1,954,000

"Urban municipalities received from the Government for unemployment relief, \$50,000. The Provincial Government guaranteed the repayment to the banks of all loans made by the banks to such municipalities to enable them to dispense such relief.

"This year again, the major portion of the municipalities suffering drought last year, are again experiencing adverse conditions. The position of a great many of the people residing in such areas is serious. To assist the farmers in these areas this coming fall and winter, the Government is spending approximately \$1,500,000 in relief road camps, between forty and fifty such camps having been already established. Further, to assist many municipalities, the Government is advancing this year, next year's municipal road grants. In some municipalities where the situation requires more than ordinary attention, but where road camps were not established, the Government is contributing to such municipalities an extra grant. The Government appreciates that such road camps do not completely solve the situation in these municipalities, but they do permit the residents in these areas to receive \$1,500,000 on account of such road work. These camps will be continued until freeze-up. On account of adverse conditions, the Government is not asking for any contributions from such municipalities toward such road work.

"Further, to assist the farmers of these dried-out areas, the Government is again, this year, paying one-half of the freight on all hay and fodder shipped into these areas by the railways, the railways paying the other half of the freight. The portion of such freight chargeable to the Government this year, will approximate \$500,000.

"Requests have been made on behalf of a great many of the municipalities in the dried-out areas that the Government, with the assistance of the railways, supply coal free of all freight charges, to the residents of such dried-out areas. The Government approached the railways with a request that the railways absorb one-half of all the freight charges on Saskatchewan-mined coal shipped to the dried-out areas for relief purposes, agreeing to pay the other half of such freight. The railways, however, were unable to agree to this proposal. The Government has decided, therefore to assume one-half of all freight charges on coal mined in Saskatchewan and shipped to the rural municipalities in the dried-out areas, on the order, for relief purposes in such rural municipalities, this policy to take effect immediately.

"The expenditure incurred and to be incurred by the Government this year, in granting relief to the residents of the dried-out areas, will approximate \$2,500,000. The Government is receiving from the Federal Treasury the sum of \$500,000 for relief purposes in the dried-out areas. This \$500,000, will be seen, will only take care of a small portion of the money which the Government has spent this fall and is spending for such relief in such areas.

"The Federal Government is further assisting Saskatchewan in the matter of unemployment by a further contribution of \$1,000,000 to be

ISSUES STATEMENT

Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government.

used in assisting to pay for certain public works to take care of unemployment in the municipalities of this province. For every dollar that the Federal Government puts up, the Provincial Government must contribute one dollar and the municipality receiving such assistance must pay two dollars. In other words, if the contribution of \$1,000,000 from the Federal Government is spent, then the total amount that the Provincial Government must contribute will be \$1,000,000, while the municipalities must contribute \$2,000,000, thus making a total of \$4,000,000.

"This year, as last year, the Government again proposes to continue to guarantee the banks against loss for loans made by them to the municipalities in districts where, on account of crop failures or other adverse conditions, such assistance is necessary. Further details in connection with the administration of relief will be worked out in due course.

"The Government wants to emphasize that all public works proposed by municipal authorities, must be planned to provide the maximum amount of employment with the minimum expenditure of materials on such works. Any project which does not keep this in mind, cannot be entertained by the Government. It wishes to emphasize again, that the relief to be distributed is to be distributed only to those municipalities whose resources are insufficient to enable them to provide for their own unemployment. This is a fundamental principle laid down by the Federal Government and will not be departed from."

Return To Old Method

Manitoba Farmers Are Hauling Their Wheat To The Mills

Manitoba farmers are back to the grist-mill days of a generation ago, and are hauling their wheat to the mill instead of selling to agents of the larger milling interests. From miles around, farmers are hauling their grain to mills at Holmfeld, Somerset, Wawanesa and Morden. For a bushel of No. 1 Northern—60 pounds—farmers receive 40 pounds of flour, 15 pounds of bran, and three pounds of shorts. The other two pounds are allowed for waste. The usual charge for grist-mill is 20 cents per bushel. As in the old days, the farmers draw up their wagons and stand alongside, discussing the topics of the day.

A Scientific Lung

Through the invention of Dr. Philip Drinker, of the Harvard School of Public Health, persons who now suffer from lung trouble have a "scientific lung" available. This machine is said to be able to keep alive or weaker persons whose breathing apparatus get out of order or cease functioning altogether.

Licensed Taxidermists

Under the Migratory Birds Act, no person is allowed to engage in the business of taxidermist without first having secured a license to do so from the Minister of the Interior. The taxidermist must not have any bird that has been illegally killed, and every year he must make such returns as the Minister may require.

Cuba plans to establish its first national park, for protection of native plants and trees.

Nervous Headaches

due to over work, are quickly dispelled by Minard's. First heat the Liniment—then inhale it for a few minutes. It has a speedy curative effect.

Real Service To Travellers

Railway Station At Naples Has "Walking Telephone"

Nine out of ten inventions these days seem to be those for saving time and energy.

And one that has just been put into service at the railway station at Naples surely gets the list, for it is nothing more or less than a walking telephone!

A number of boys dressed in uniform, carry, suspended round their neck, a telephone.

From the telephone hangs a long reel of flex, which is quickly connected to a plug on the station wall. The telephone is then ready for use, and the carrier stands and waits your convenience whilst you transact a business deal or a friendly chat over the instrument.

Having completed your conversation you pay the required fee—which is very small—and the "telephone" departs to another likely customer.

(By Eva A. Thingley).

ATTRACTIVENESS FOR MATRONS

All Tingey models are created and sketched in Paris and the patterns are made in New York. Most matrons—and others too, will love this adorable dress. It is extremely graceful, easy to make and adjust and smart as paint, beside that all important thing—slimming!

Its likable crossover roll collar merges into the waistline seam. The skirt is wrapover too, of course—a dotted line showing where the under-skirt reaches. There is ample wrap which insures the model keeping well adjusted.

A bow of self material is pretty posed on the collar. In the original it was lined with rose or Patou pink as was also the waist band.

Printed materials with plain saah and bows linings or this order reversed, red with beige, navy and white, or black with white, pink, jade or turquoise are all modish schemes.

This pattern may be obtained in sizes 14 to 20 and 34 to 44. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

SUNDAY SCHOOL LESSON

NOVEMBER 2
SIMON PETER—FROM WEAKNESS TO STRENGTH

Golden Text: "Now when they beheld the boldness of Peter and John, and had perceived that they were unharmed and ignorant men, they marvelled, and they took knowledge of these that they had been with Jesus."—Act 4:13.

Lesson: Mark 8:27-29, Luke 22:31-34, John 1:26-27, 21:15-17.

Devotional Reading: Philippians 2:1-11.

Explanations and Comments

Peter's Great Avowal, Mark 8:27-29—"Who do men say that I am?" Jesus suddenly asked His disciples when on their way to Caesarea Philippi. "John the Baptist," they answered. And one of the prophets said, Matthew 14:2; "and others, Elijah (Matthew 7:10; Mal. 4:5, 6); and others. One of the prophets said, 'But who say ye that I am?' Jesus next questioned, 'A photographer is here to make a sensitive plate, expose it to just the rays of light that he chooses, dips it into the proper solution, and holds it up to the light to see if his picture is there. What else did this Great Teacher do on that day but he chose men to be the light to find out if the reflection of the Son of God were fastened there?'—J. M. Sullivan. And Jesus answered for the disciples, 'Thou art the Christ.' Peter's Over-Confidence, Luke 22:31-34—"Simon, Simon," Jesus solemnly said, "behold Satan asked to have you, that he might sift you as wheat. But He has prayed for you that your faith might not fail. And do you know how much you have been again (recovered from this failure), establish (encourage) thy brethren."—The Jesuit. "I forbade Peter yielding to the temptation awaiting him; before the crowing of the cock, Peter had said, 'I will follow you wherever you go.' Peter would three times deny that he knew his Lord."

Peter's Sin, John 18:25-27—"After the arrest of Jesus, Peter followed Him to the palace of the high priest and was in the inner court where he was warned himself, when he was asked if he were one of Jesus' disciples, and he denied that he was. One of the servants of the high priest, a Kinsman of the one whose ear Peter had cut off at the arrest in the Garden of Gethsemane (Matthew 26:51), said to him, 'Dost thou not see thee in the Garden with Him?' Again Peter denied, and immediately he was in the cock crow. 'In that moment Simon Peter was etched into an everlasting picture.'—F. W. Newwood.

"Alone and crushed, his enemies close by. With hasty speech Peter denied he it was. Yet safe and careless, with light laughter, I denied Him with the small, unspoken word."

—Ethel A. McJohn.

Peter's Penitence and Pardon, John 21:15-17—"On the shores of Galilee, Jesus turned to Peter and said, 'Simon, son of John, lovest thou Me more than these (more than these other disciples) love Me?' Once Peter had boasted (Matthew 26:33), 'If all shall be offended in Thee, I will never be offended.' But now he is no longer self-confident, and in great humility he answers, 'Yea, Lord; Thou knowest that I love Thee.' Instead of 'I' it is now 'Lord, Thou.' 'Then said Jesus, 'Feed my Lambs,' thus telling the heartbroken Peter that he was trusted that he would have a chance to redeem himself. A second time Jesus asked the same question, and Peter gave the same reply. 'Tend my sheep,' said Jesus. The third time, Peter was grieved and said, 'Lord, Thou knowest all things; Thou knowest that I love Thee.' 'Lord, Thou knowest everything, all I said and all I did, all I am, but this Thou also knowest, that the dearest thing in my heart is my love to Thee. By that love which has borne no fruit, which has failed in the hour of need, which has been mastered by fear, but which is real and is my very soul, by that let me be judged.'—John Watson.

Erect German Memorial

In memory of German undergraduates of New College, Oxford, England, a tablet has just been erected in the chapel of the college. It bears three names and the following inscription: "In memory of the men of this college who coming from a foreign land, entered into the inheritance of this place and returning, fought and died for their country in the war, 1914-1918."

Canadian Fox Export

The export of Canadian live foxes to Germany continues to increase in numbers. During 1929 a total of 892 valued at \$259,582 were shipped from the Dominion as compared with 375, valued at \$105,360 in the previous year.

The amount of natural and artificial gas produced in the world in a year would fill a dirigible a mile in diameter and 20 miles long, powerful enough to lift the Egyptian pyramids.

Manitoba Buys Western Coal

Manitoba bought 135,000 tons of Alberta and Saskatchewan coal from June 15th to September 25th, according to F. G. Nette, secretary of the Dominion Fuel Board.

Old Lady: "Captain, will you please come down and see what's the matter with my stateroom? It's jumping around terribly."

Spending Christmas and New Year's At Sea

Life Saving Patrol At Esquimaux Receives Orders From Ottawa

The ship's company of H.M.C.S. Armentieres, whose base is at Esquimaux, will spend both Christmas and New Year's Day on the high seas, according to orders that have gone forth from the Department of National Defence at Ottawa. "Armentieres" will undertake life-saving duties off Esquimaux, B.C., Barclay Sound, and the coast of Vancouver Island adjoining. This patrol is an annual feature during the winter, shared between the ships of the Department of Fisheries and those of the defence forces. This year it falls to the lot of "Armentieres" to be at sea from December 15 to January 14, 1931, and from February 6 to February 28.

The duties involve the searching for wrecks on the storm-lashed west coast of Vancouver Island.

DO YOU SUFFER WITH HEADACHE?

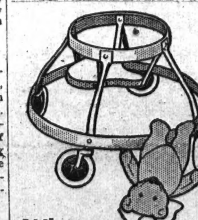

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart, and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The same and have the same result. First correct the cause, sweeten the sour and acid blood, relax the contracted vessels of the decayed and poisonous food matter, gently stimulate the liver, start the bile flow, and the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red caps.

Jap Chauffeurs Have Assistants

A. G. Williams, a New York visitor from Osaka, Japan, says that in the big Jap cities taxies have chauffeurs and assistant chauffeurs one to drive and one to watch the road, the populace swarming over the highways with no thought of danger.

Grows White Tomatoes

A returned soldier farmer at Chilliwack, B.C., after many years of experiment, has produced a white tomato, which is non-acidic and has been cultivated especially for its medicinal purposes.

When BABIES are Upset

BABY ill and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one for your own peace of mind, keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who has a colic, or a diarrhoea, or a constipation. It will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Getters CASTORIA

Don't Let Constipation Lead You Into Serious Illness

Serious renal troubles, piles, paralysis, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily glass of ENO in a glass of water every morning, tones up and sweetens the entire system.

CHAPTER III.—Continued.

"Thank goodness then, that you didn't discover me kissing!"

"Is it so awful—before me?" asked Nick.

"It would be awful kissing you good-bye," answered his wife demurely.

"For that," he said, putting his arm about her, "you shall have another!"

"Gay," he continued with mock severity, "we're downright silly. I wouldn't have believed we could be so. And I suppose you're right. We've sponged on Mr. Bartlett long enough. Say, let's ask the old man up to supper. It would tickle him to death."

So Simeon Bartlett was their first guest. He arrived punctually, let the hand pull up the foot path that led from the wood road.

"I take this kindly, ma'am," he said, sinking down breathless on the porch, and mopping the dampness from his brow with a huge handkerchief. "Although evening was approaching, he seemed almost afraid to give it up when Gay offered to relieve him of it."

"Never travel without it, ma'am," he repeated. "Shouldn't hardly feel at home if it wasn't along. Well, well, this looks real cosy, don't it? Built this place for my old woman, ma'am, before I got so confused and flashy. Time was when I could come up that path without battin' an eyelash, same as Nick here. A good boy, Nick. You didn't make no mistake when you picked him out."

"She didn't do the picking," laughed Nick. "I picked her, and then didn't give her time to think about it."

"Well, well," chuckled the old man, "just you take care that she don't regret it. By gorry! this ain't by any chance your honeymoon, be it?"

Gay blushed; but Nick only laughed at their guests' embarrassing interrogation.

"We hadn't been married ten minutes when you met us, Mr. Bartlett."

In an instant the old man was serious.

"You ain't runnin' away from your folks, be you?" he asked soberly. "If

so, it's my advice for you to go straight home and make it up. I—"

"You needn't worry a minute about that," Nick interrupted, and Mr. Bartlett brightened perceptibly.

"Tain't a good thing to quarrel with yer folks," he continued, sinking back comfortably in his chair. "I wouldn't advise it, even though they're times when families set awful personalities. But it's no way to begin life, runnin' off an' gettin' married secret like. Tain't a good thing to remember. You got to think o' that, boy. Everything you do now—every darn mean, thoughtless little act—comes back to you when your work's done, and you got to set it down and think it over. Once when I wa'n't more than six year old I cheated at an egg race. 'Twas at a Sunday School picnic. I didn't hardly know I was cheatin' till afterward; but I took the prize (it was a whistle, ma'am, hung on a red silk cord), and I tain't never been able to forget it. Well, I'm glad you ain't quarrelled with yer folks."

"We have none to quarrel with," said Nick.

"Not—neither of you?"

Nick shook his head. He boldly put an arm about his wife and drew her closer. "So you see," he said to Mr. Bartlett, though his eyes sought Gay's, "we seem to belong together."

"That's right," responded the old man. "That's the way to feel; and don't you ever let nothin' come between you. Don't lie. If the time comes when you make a fool of yourself, Nick, you just own up, and if yer wife loves you she'll forgive an awful lot. The good book says that the pence o' God passeth all understanding, but I don't believe it's a mate more wonderful than the love o' woman. What a woman'll put up with—well, I'll say this, son: you're a good boy. You probably ain't one third good enough for her."

"I fear I'm not," agreed Nick readily; but Gay laughed, and asked if her husband was to get all the good advice.

Simeon Bartlett chuckled. "I don't aim to advise a lady," he said gallantly, "but if I was urged I say don't tie him too close to yer apron strings, ma'am. Give him plenty o' rope to run on, and don't mind when he notices a pretty face. It's agin natur for a young feller like Nick not to see 'em, and it's a darn sight safer if he ain't afraid to mention 'em to his wife. Just so you're sure he loves you, you ain't got a thing to worry about. Jealousy, ma'am, has made more unhappiness than strong drink; though I ain't on speakin' acquaintance with either."

"That sounds," laughed Gay, "like a gentle hint for supper. Shall we have it here on the porch?"

"That would suit me fine, ma'am. Me and my old woman used to eat here summer evenin's. Sometimes the hermit thrushes would sing for us. We called 'em our orchestra; and I tain't nothin' but music it was than what comes out o' the brass band over to Meller's Falls."

"We'll agree on that," said Nick. "They sang the night we came here. I told Gay it was a bridal chorus, sung specially for us."

"And I don't doubt it was, sonny," said the old man gently. "You run along now and help your mislaid dish up supper. You don't need no company o' me; and I ain't one that b'lieves a man's place is on the front porch while his wife is rastlin' with the kitchen stove or the dish pan."

"Nor am I," said Nick, rising to obey. "You can ask Gay if I'm not a champion dish-washer."

It was a festive little supper, and Simeon Bartlett pronounced his hostess a "first class cook," a tribute that brought the happy color into Gay's cheeks, and proud light to her husband's eyes. Later, when the world was drenched in moonlight, they escorted Mr. Bartlett home.

"I've had a real good time," he said in parting. "Don't know as I've enjoyed anything so much since my old woman went away. Stay as long as ever you're a mind to, but not a minute longer. I know how 'tis. Once I had that longin' to see new things myself; but it's long years now since I've seemed the best place of all. Gorry! if it want for all the things I've got to remember, I'd almost ever you, startin' out with the whole o' life before you. Goodnight, youngsters; and don't you go forgettin' the good advice I give you."

He chuckled, but Nick said soberly: "I shan't forget, sir."

"Nor shall I," Gay promised. She laid a gentle hand on the old man's arm. "If I'm not Nick happy it won't be because I forgot your warnings, and—I thank you."

"You're a good girl," he answered, patting her hand before releasing it.

"You're a lovely old man," a happy exclamation.

"What a dear he is," said Gay, as they rode away. She felt suddenly reluctant to leave this kind old friend, standing alone before a house that showed no signs of age.

Nick looked at her tenderly. "You're something o' a dear yourself, Gay. I could see that you took old Simeon's heart by storm. For old chap! His wife's been dead for years, but he always says as if she had just left him. I'm glad we thought to have him up for supper."

"It was you who thought of it," said Gay. "You had the right idea. She moved closer to her cheek against his arm. "Nick..."

"Well?" Nick questioned, as no words seemed forthcoming.

"I've been wondering..."

"Wondering what?" He looked at her anxiously. "It seems to be difficult to say."

"It is—Nick—I think you're wonderful!"

"Is that all?" Nick queried, with a slow smile.

"No. There's a problem been troubling me all evening. I can't face it alone, and—"

"Of course you can't—you've got me to face it with you! But, my dear girl, I thought it was to escape such things as problems that we came away. Anyway, we won't face it till we're back at camp. I'm going to take you the long way round. It's a glorious night to ride."

It was so glorious that they forgot the flight of time. It was late when they reached the cabin, but despite the hour they sat down together on the porch, and Nick reached for his wife's hand, twisting the slender wedding ring around her finger.

"You've guessed this was my mother's, haven't you? She told me to keep it till I found the one girl in the world. I used to think I'd never use it—or not for years and years. No settling down for me! I was to be a vagabond, you know—traverse the earth—conquer the world! Oh, Gay, what a kid I was, even a week ago!"

She stirred uneasily. "And aren't you now?"

"My dear, how can I be a kid? I'm a married man!"

He was laughing; but Gay said soberly: "But—I like having you a kid, Nick. You're only twenty-one. It's that..."

"Oh!" said Nick. "I see. I'd forgotten the problem. Trot it out, young lady, and we'll go to it; though you've no moral right to produce the abominable thing on a quest for freedom."

(To Be Continued.)

Your health is aided while your pleasure is served.

Good and Good for You

AFTER EVERY MEAL

Takes On New Job

Engineering Wizard Will Build Tunnel Under Mediterranean Sea

Paul J. Morani, the man who put Wall Street on stilts and carved a half-mile ditch through the world's greatest financial section without disturbing the powder on a stenographer's nose, is seeking new holes to dig.

He looks forward to his next job—building of a railroad tunnel under the Mediterranean Sea to connect Spain with Morocco. The Spanish Government has appointed him consulting engineer for the project and he will leave soon to make borings off Gibraltar.

Morani's task of constructing a subway excavation to link the lines of the Brooklyn-Manhattan Transit System is practically completed—

one year ahead of schedule. Seven hundred men contributed to the work and it will cost the city \$5,735,149.

In executing a job that experts said could not be done without suspending operations on the markets, Morani jacked-up 35 skyscrapers; shifted a solid maze of electric conduits, gas, water and steam pipes; removed a brick sewer; sunk his supports in quicksand; dumped the excavated mud thirteen miles at sea, and fought every step of the way against dense traffic and swarms of pedestrians on the narrowest streets in the city.

Songs Of The People

Passing Of The Popular Song Of Previous Decades Is Noted

Has any durable and widely sung popular song been written in the last decade—anything comparable in the range of its appeal and the length of its life to such ditties of our parents as "After the Ball Was Over," "The Man That Broke the Bank," or "Daisy Bell"? The question is suggested to the Manchester Guardian by the plight of the sheet-music publishing business in New York, where, according to the chairman of the Music Publishers' Protective Association of America, a loss of some \$5,000,000 has been made on sheet-music sales since the advent of the "talkies." It is an imposing figure, but the rot had set in before the "talkies" came to accelerate it. The mechanization of music has for many years been killing the popular song of the old sort. The machines must be fed, and an over-production of standardized raw material is nowadays available to feed them. No age has had more music available than ours. It can be turned on at any home almost as simply as the water tap. Yet none has been so barren in producing songs of the people.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Active Prospecting Year

Valuable Mineral Discoveries Reported in Northern Alberta

The adjournment of prospecting operations in Northern Alberta this season will bring to a close one of the most active prospecting years in the history of the province. Five major companies have carried on intensive exploration work with the use of airplanes and at considerable cost. Valuable mineral discoveries are reported to have been made and much valuable data secured.

Minsar's Liniment refreshes the scalp.

London has been invaded by an army of street baggage players.

Should Bring Results

Matrimonial Ad In Japanese Paper Is Very Tempting

The matrimonial advertisement has recently been introduced into Japan, and we have just seen the translation of a quaint specimen. It reads:

"I am a beautiful woman. My curly hair is like a gentle wave. My figure is supple as a reed, and my skin soft as silk. I possess a large enough fortune to go safely through life at the side of my beloved. If it were my good fortune to meet an honorable man, well-bred and intelligent, I would remain always kind and obedient to him, and would happily share with him eternal rest in a tomb of rose colored marble."

All very tempting—even to the offer of the rose-colored marble tomb, which would appeal to the Japanese rather than to the British mentality.

A Satisfactory Arrangement

Michigan Barbers Accept Wheat In Pay For Haircut

The barbers of Sparta, Michigan, have agreed to cut hair for wheat. For one bushel of wheat any farmer living in these parts can obtain an artistic hair cut and 27 cents cash farm relief.

The decision to accept wheat instead of money was reached at a meeting of all Spartan town barbers, at which the present plight of the agricultural industry was discussed. Wheat is selling here for 67 cents a bushel and a trim is valued at 40 cents.

Chickens belonging to Sparta barbers will benefit by the offer.

KEEPING BABY

LOVELY AND WELL

Some babies thrive from the hour of their birth while others make so little progress as to be the cause of much anxiety. As a rule it is the digestion that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Industry In Palestine

Palestine is becoming important as an orange-producing country, the fruit grown there being said to have a speciality flavor and appearance. Jews in Palestine have invested over twenty million dollars in orange groves and new ones are being set out all the time. And so the future of Palestine brightens.

Recent experiments indicate that flies avoid entering rooms lighted through red or yellow glass.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch, and Ringworm.

Will Visit Winnipeg

The United States Junior Chamber of Commerce National Convention to be held in Des Moines, Iowa, in June, 1931, is to organize a post convention tour to Winnipeg, led by the national president, Dunward Howes of Los Angeles.

Little Helps For This Week

"If thou shalt hearken unto the voice of the Lord thy God, blessed shalt thou be."—Deuteronomy xxviii, 2, 3.

O God, within so close to me that every thought is plain: Be judge, be friend, be Father still, And in Thy heaven reign: Thy heaven is mine, my very soul, Thy words are sweet and strong. They fill my inward senses With music and with song.

They send me challenges to right, And loud rebuke my ill; They ring my bells of victory, They breathe my "Peace, be still!"

—William Channing Gannett.

There is no greater gift or possession than to believe God speaks to us. If we believe that, we are already blessed.—Marjorie Luther.

When Pain Comes...

Two hours after eating

WHAT many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sores. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. 50c a bottle; any druggist. Complete directions for its many uses are enclosed with every bottle.

PHILLIPS' MILK OF MAGNESIA

The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on the bottle.

For Troubles due to Acid Indigestion Sour Stomach Heartburn Constipation Headache Neuralgia

Three enormous amounts of water. An apple tree, 20 years old, will give off approximately a barrel of water a day.

Use Minsar's Liniment for Toothache.

GRAND CHANCELLOR
VISITS BLAIRMORE LODGE

An unusually large attendance greeted Grand Chancellor A. E. Hartley, of Medicine Hat, at the regular meeting of Livingstone Lodge No. 22, Knights of Pythias, on Friday night last. The grand chancellor was accompanied by A. M. Warriner, grand master of the exchequer, and John Griffith, grand warden, of Hillcrest and Coleman, respectively. All three addressed the meeting of the lodge, which was attended by a large number of members from Hillcrest and Coleman. Following the meeting, a social hour was spent, during which refreshments were served by the

Pythian Sisters. Dancing and singing formed part of the programme. On Saturday night, the grand chancellor was the guest of members of Sentinel Lodge at Coleman and the Pythian Sisters of that town, returning to the 'Hat that night.

FAMILY ENGLISH A HANDICAP—Mrs. Joe H. Bosely, Bellevue, is giving a short course in English during November. Special attention given to those desirous of learning the English language.

The Georgian Singers and entertainers, whose excellent programme so pleased Blaimore audiences last year, are again on tour of Canada.

"I sure thought of the old Sun Life when I was under there!"

A MAN, a mine foreman in Ohio, took out a policy for \$2,500.00 on October 16th, 1926.

See one of its Representatives

SUN LIFE ASSURANCE COMPANY OF CANADA
HEAD OFFICE MONTREAL

C. J. Tompkins, District Agent, Blaimore

Four days afterwards, a section of the mine roof fell and twenty-five tons of slate pinned him down. In falling it fortunately formed an inverted "V", else he would have been crushed. Two hours and a half later a rescue party extricated him. As he was being carried to the surface, his first words were:

"I sure thought of the old Sun Life when I was under there."

The Sun Life of Canada will protect you too, at moderate cost.

Local and General Items

It matters not how a man dies, but how he lives, says Sam Johnson. The act of dying is not of importance, it lasts so short a time.

The honey crop this year in the Province of Saskatchewan is placed at 550,000 pounds, an increase of 150,000 pounds over the 1929 output.

TEA AND SALE OF HOME COOKING, Moose Hall, Blaimore, Saturday, November 8, from 3 to 6 o'clock, by the V. C. Group of the United Church.

The next regular meeting of the Crows' Nest Chapter, L.O.E., will be held at the home of Mrs. Moses Johnson on Monday, November 3rd, at 7.30 p.m.

A general meeting of the local branch of the Canadian Legion, B.E. S.L., will be held at 2.30 on the afternoon of Sunday, November 2nd, in the Legion Hall.

In the list of relatives surviving the late Giuseppe Fabro, in our last issue, the names of two daughters were omitted, namely: Mrs. Rinaldo Pozzi, Blaimore, and Mrs. Frank Macor, Italy.

Harry Griesbach and W. J. Bartlett attended the auction sale at the Drewry Ranch, near Lundbreck, yesterday. Each brought a cup, a free lunch having been advertised in connection with the sale.

Radioplanes were searching the country in the neighborhood of Cougar Valley this week for "Gee-Po" John, whose disappearance from social circles has been worrying the Blaimore public.

There is no place where humor counts for more in a commercial way than in advertising. If you can only land your shot under a man's funny bone, you have done the deadly work and can interest him in whatever you have to offer.

The federal government will erect a post office building at Drumheller, to cost in the neighborhood of \$65,000. Part of the cost is being maintained by the city of Drumheller as a portion of the unemployment relief.

Apples grown in the Annapolis Valley, Nova Scotia, one of the most productive fruit growing districts in Canada, are this year being exported to Belgium in large quantities. It is expected that the total shipments will be over 50,000 barrels.

McKeen Hunter has returned to Coleman from an extended vacation spent in various parts of Nova Scotia. Rumor has it that "Mac" isn't single any more, but we do not know whether or not it is safe to extend sympathy.

Rev. J. W. Smith, B.D., returned Monday from Lethbridge, where on Sunday he occupied the pulpit of Knox United Church morning and evening, in exchange with Rev. J. W. Pritchard, who was conducting anniversary services at the Blaimore United church.

Ernest Paul Schoeppe, for many years a detective with the provincial police, has been committed to stand trial on a charge of criminal breach of trust, by placing to his own use and benefit funds entrusted to him in behalf of the estate of one Andrew Zwarich, and amounting to \$1064.

The ban on Canadian hockey players crossing over to the United States was lifted on Friday last. Dave Kemp and Jollett Houbregs, former star goalie and defense, respectively, of the Blaimore senior provincial champions, are among those to cross over. We understand that Dave is leaving for the south this week end, while Jollett will likely cross over from Vancouver. The first big league games are booked for the second week in November.

Fred E. Rengh has been re-elected president of the Lethbridge Exhibition Board. R. W. Gardner has been re-elected secretary.

The colors of license plates for the year 1931, to be issued by the Alberta Government, will be white figures on a cobalt blue background.

Kissing has been banned in Russia by the Soviet government, and even postal packages contain warning against the habit.

Don't forget the Oddfellows' dance to be held in the Moose Hall tomorrow night. B.I. Fraser's orchestra in attendance.

Young daughters of Mr. and Mrs. R. W. H. Pinkney and C. Thomason, who have been seriously ill, are reported recovering.

Harry says that no money was saved in hiring a taxi to take him to Lundbreck for a free lunch. He'd have saved money by staying at home.

Rumor has it that H. Bosenberry may resign his provincial seat in Pincher Creek, to give place to J. W. McDonald, K.C., Alberta's Liberal leader.

Dr. Carpenter, of the Calgary provincial School of Technology and Art, was a visitor to Coleman this week in connection with the formation of night classes.

There's so much safety in the worst of us, And much more safety in the best of us, So it behooves alfofus, To practice safety on the restofus.

A Scotsman was leaving on a fortnight's business trip and called back as he left home: "Good-bye, all, Katherine, dinna forget to nak' little Donald tak' his glasses off when he's na looking at naething."

It is the will of Heaven that those who have strength should mutually support others, that those who have knowledge should share it by teaching others, and that those who have wealth should, out of love, share it with others.

Mr. and Mrs. J. R. Smith have returned to Canada from an extended visit to points in the British Isles. Mrs. Smith arrived here during the week, while Mr. Smith remained over in Winnipeg and other points enroute.

From Calgary to the international boundary, and from Medicine Hat to the Crows' Nest Pass, the prize given by the C.P.R. for the finest garden surrounding one of its stations was won this year by C. J. Bundy, of Cowley.

Harry Herman, proprietor of the Herman Raw Fur Company, of Winnipeg, pleaded guilty to the charge of robbing the Bank of Toronto branch at Transcona, Winnipeg suburb. Three holdup men obtained more than \$11.00 in the robbery. Two others arrested, Joe Wyrozub and Leslie Gwynn, pleaded not guilty and elected jury trial. Herman was given three years' imprisonment.

Don't forget the Tea and Pantry Sale in the United church on Saturday, November 1st.

ANNUAL BAZAAR, Hillcrest United Church Ladies' Aid, November 8th.

HALLOWEEN DANCE, Auspices of L.O.O.F. Lodge, Moose Hall, October 31st.

THE C.W.L. ANNUAL BAZAAR, Opera House, Nov. 15th. Donking 9 to 12. Watch for this annual event.

BELLEVUE C.W.L. BAZAAR will be held on November 8th. Keep the date open.

THE PYTHIAN SISTERS will hold their **ANNUAL BAZAAR** in the Lodge Hall on November 22nd.

Doing little things all day long, such as saying a kind word, giving a helping hand, an encouraging smile, putting self out to please another without expecting or thinking of a return—doing these little things from sunrise until sunset makes us more like God; at the same time it makes us useful to our neighbor.

Noted American newspapermen, invading Nova Scotia in quest of big game, were successful on October 24th in bringing down a moose that weighed 1100 pounds. The large animal fell to the gun of eighteen-year-old J. R. Howard, son of Roy Howard, chairman of the board of the Scripps-Howard newspapers.
